Report of the Executive Director

Report from the Kentucky Department of Education

A written report was provided.

Report from the Council on Postsecondary Education

A written report was provided.

State Budget Update

Executive Director Adams reported on the state budget status in the absence of Greg Rush, the Executive Director of Budget and Administration for the Education and Workforce Development Cabinet, who was unable to attend. He said that the EPSB was asked to prepare a plan for potential 15% and 20% budget cuts for the agency. The agency will not know if or when budget cuts will be officially announced, but a plan is in place.

Teacher Career Pathways

Ms. Kelly Stidham (KDE) presented on the Teaching and Learning Career Pathway. This new education career pathway will provide high school students an additional pathway choice and supports the recruitment of a diverse and effective educator workforce in Kentucky. The 2017-2018 school year is the beta year to collect data and assess all components of the pathway.

Compensation for Student Teaching or Field Placement Hours Update

Executive Director Adams said during the past few meetings the response from the opinion of the Attorney General concerning compensation for student teaching or field placement hours has been discussed. In addition to reviewing the opinion of the Attorney General, staff found little data that support the practices of prohibiting an individual from obtaining field experience hours or student teaching at a school of origin or one in which the individual is employed.

He stated that at the August meeting, the Board directed EPSB staff to develop guidelines and make changes to the associated regulations pertaining to the following:

*while it has been permissible for field placement hours to be conducted at a school of origin, an allowance for student teaching at a school of origin should also be made;

*teacher candidates should be able to conduct field placement hours or student teach at a school of employment;

*teacher candidates should not necessarily receive compensation for student teaching; and

*if the Board decides to pursue the idea of paid student teaching, an impact study should be completed.
Mr. Adams reported that based on those directions, staff has been editing regulation 16 KAR 5:040 Admission, placement, and supervision in student teaching. Proposed changes to the regulation remove language that is more appropriate for guidance documents, revise the observation requirements of student teachers, and revise and streamline the process by which an institution may request an alternative placement if an appropriate grade level placement cannot be found. Staff will place that language in a policy/procedure manual or handbook.

Mr. Adams said that in the proposed guidance documents, educator preparation providers will have the discretion of allowing or not allowing a teacher candidate to conduct field experience or student teach at a school of origin or one of employment. This continues the practice of allowing the EPPs to ensure that the statutes and regulations concerning field experiences and student teaching are met professionally, and that teacher candidates receive quality experiences in these areas. It allows an EPP to exercise what it can support to be “best practice” on these issues. However, if the EPP’s current practices are based on the 1963 Opinion of the Attorney General or previous direction from EPSB staff, that provider must find a new basis with data on which to support its actions.

Mr. Adams also stated that as long as the EPP can support its decision, then it can make that determination. The EPSB’s expectation, as it has always been, is that the EPPs are making the best decisions for the teacher candidates and advising them properly so that they are learner ready on day one of their careers.

Rank II Recommendations Update

Ms. Donna Brockman, Mr. John Fields, and Dr. Ben Boggs provided an update on the Rank II recommendations. Although the committee reached consensus, there were some recommendations that remain controversial. The recommendations were as follows:

1) Remove the mandatory requirements for an educator to obtain a Rank II as outlined in 16 KAR 8:020.

2) Allow a NBPTS certification to apply toward either a Rank II or Rank I as allowed in KRS 161.1211(1) classification of teachers. If an educator receives an additional NBPTS certificate in a different content area, the second certification may be used for a Rank I.

3) Create an approval process for an education cooperative, school district, or similar, as allowed in KRS 161.010(10). Grant certification authority to submit a planned pathway for a Rank II utilizing field-based experience, individual research, and approved professional development as allowed in KRS 161.095 continuing education for teachers.

4) Maintain the current CEO program as is.

5) Remove the prerequisite of a master’s degree for admission to an administrative program, but maintain the experience prerequisites.

6) Inform and promote the changes made by the Board once they go into effect.

Potential impacts of these recommendations include a systems change, uncertainty for educator preparation programs, quality of programs, and student achievement.
Mr. Terry Hibpshman presented the idea of developing a new career progressions system to replace the current rank system. He offered one approach that may be considered.

Mr. Adams proposed asking the legislature to file a joint resolution during the 2018 legislative session for a four-year stay on the Rank II requirement to allow time for redesigning and implementing a new system. The general consensus of the Board was to move forward with this proposal.

In December, Mr. Adams will bring forth a Career Progression Charter and method for appointments for the Board to consider.

Report of the Chair

Board Retreat, December 10, 2017, 2:00PM ET

Chair Akers announced a Board retreat on December 10, 2017, at 2:00 p.m. ET at the EPSB offices.

Executive Director Evaluation

Chair Akers said a report from the Executive Director Evaluation committee would be presented at the December meeting.

Information/Discussion Items

16 KAR 5:040. Admission, Placement, and Supervision in Student Teaching, Amendment.

Dr. Ben Boggs presented proposed changes to 16 KAR 5:040. To address the direction of the Board, staff looked specifically at Section 6, item (8) which currently states:

"A student teacher shall not be employed within the school in which he or she is assigned concurrent with student teaching."

New suggested language was as follows:

"A student teacher shall not receive direct compensation for student teaching."

In addition to this change in the regulation, the draft removes language that is more appropriate for guidance documents, revises the observation requirements for student teachers, and revises and streamlines the process by which an institution may request an alternative placement if an appropriate grade level placement cannot be found.

This item will be brought back to the Board in December for proposed final action.

1705900  Kristi Blakemore

Accept Agreed Order admonishing Blakemore for conduct unbecoming a teacher. The Board reminds Blakemore that, as a teacher, she has a duty to uphold the dignity and integrity of the teaching profession. Using profanity in front of students disrespects this dignity and integrity and sets a bad example for the students in her classroom. The Board will tolerate no further misconduct from Blakemore.

Upon acceptance of this Agreed Order by the Board, Certificate Number 200303437 shall be on a two (2) year probation and subject to the following probationary condition:
1. Blakemore shall receive no disciplinary action regarding the use of inappropriate language in the classroom during the probationary period. “Disciplinary action” is defined as any suspension, termination, or public reprimand issued by any school district in the Commonwealth of Kentucky and upheld, if requested, by either a tribunal and/or arbitration process.

Blakemore is aware that should she violate KRS 161.120 in the future, the Board shall initiate a new disciplinary action and seek additional sanctions.

Vote: Unanimous

1205298 Deonna Adams

Accept Agreed Order admonishing Adams for conduct unbecoming a teacher. As an educator, Adams has a duty to protect the health, safety, and emotional welfare of students. As a teacher of students with special needs, Adams must be especially cognizant of the language and amount of force used when disciplining and assisting her students. The Board will not tolerate any further incidents of misconduct from Adams.

Adams is retired. Should Adams decide to return to the classroom in the future, she must complete the following conditions prior to accepting a position which requires Kentucky certification:

1. Adams shall submit written proof to the Board that she has completed twelve (12) hours of professional development training on classroom management relating to Exceptional Child Education, as approved by the Board. Any expense required for said training shall be paid by Adams; and

2. Adams shall submit written proof to the Board that she has received twelve (12) hours of training on the Professional Code of Ethics for Kentucky Certified School Personnel. Any expense required for said training shall be paid by Adams.

Should Adams violate these conditions, certificate number 000080217, including any and all endorsements, shall be automatically suspended until Adams completes the
required training and provides the appropriate written proof to the Board.

**Vote: Unanimous**

1611951 Edward Munn

Accept Agreed Order admonishing Munn for conduct unbecoming a teacher. The Board reminds Munn that, as a teacher, he has a duty to uphold the dignity and integrity of the teaching profession. Being under the influence of alcohol at school sets a bad example for students, and failing to follow school procedure relating to absences and maintaining lesson plans inhibits the ability of students to receive a quality and effect education. The Board will tolerate no further misconduct by Munn.

Munn is retired and has no plans to return to the teaching or school administration profession in Kentucky. Should Munn decide to return to the profession in the future, he must complete the following conditions prior to accepting a position which requires Kentucky certification:

1. Munn shall provide written proof from a licensed and Board approved alcohol/substance abuse counseling program that she has been assessed and complied with all recommended treatment. Any expense for said assessment and treatment shall be paid by Munn. Failure to complete this requirement prior to accepting a position requiring certification will result in Munn’s certificate being suspended until he provides the necessary proof.

2. Munn shall provide written proof that he has completed a course of training on the Professional Code of Ethics for Kentucky Certified School Personnel, as approved by the Board. Any expense for said training shall be paid by Munn. Failure to complete this requirement prior to accepting a position requiring certification will result in Munn’s certificate being suspended until he provides the necessary proof.

If Munn should decide to return to a teaching or school administration position which requires Kentucky certification, he shall be under probation for a period of three (3) years from the start date of his employment. Under the terms of this probation:
1. Munn shall not be convicted of nor enter a guilty or no contest plea to any criminal charge(s) involving the use and/or possession of any controlled substance or alcohol. If Munn is convicted of, or enters a guilty or no contest plea, to any criminal charge involving the use and/or possession of any controlled substance or alcohol, he shall submit this information to the Board, in writing, within thirty (30) days. Failure to comply with this condition will result in any certificate issued to Munn being automatically suspended pending Board review and disposition.

2. Munn shall receive no disciplinary action during the probationary period. “Disciplinary action” is defined as any suspension, termination, or public reprimand issued by any school district in the Commonwealth of Kentucky and upheld, if requested, by either a tribunal and/or arbitration process. If Munn receives disciplinary action during the three (3) year period, Certificate Number 200306302 will be automatically suspended for one (1) year.

CAMPBELLSVILLE UNIVERSITY

1.0 INTERDISCIPLINARY EARLY CHILDHOOD EDUCATION

12.0 ALTERNATIVE ROUTE TO CERTIFICATION
Interdisciplinary Early Childhood Education

Background:
The Master of Arts in Teaching Interdisciplinary Early Childhood Education (IECE) (traditional and Option 6 routes) programs proposed by Campbellsville University (CU) is designed to provide instructional opportunities that empower candidates to be effective teachers in their respective disciplines. The degree program includes two routes to certification: a 36-hour traditional route and a 33-hour alternative route (Option 6). The programs will be delivered by early childhood education faculty in collaboration and partnership with area school district personnel. The program includes low candidate to faculty ratio; curriculum based on needs of 21st century classrooms and designed around intentional field experiences; excellent, hands-on advising; systematic mentoring for alternative certification candidates; and, a small core faculty that work together to create opportunities for promoting academic excellence, preparing candidates for lifelong learning in the teaching profession and continued scholarship. Courses will be taught in online and hybrid formats. This program is designed for coursework and requirements to be completed in seven 8-week graduate terms. Typically, candidates begin either KTIP (Kentucky Teacher Internship Program) or student teaching during the second year.

The IECE MAT program consists of education and special teaching methods coursework, as well as a research component. A semester long (16-week) student-teaching experience (SED 608) is required for the traditional route candidates and a requisite practicum/Seminar course (ED 607) for candidates pursuing the alternative route to certification (Option 6) while serving in a
teaching role. After Option 6 candidates have completed two-thirds of the coursework and passed the licensure exam, the University notifies the employing District/s that Option 6 candidates can begin KTIP. Successful completion of KTIP is required to complete the Option 6 program.

The assessment plan for candidates in the Campbellsville University (CU) Master of Arts in Teaching (MAT) IECE program involves three candidate assessment points (CAPs): CAP 5 – admission to the program; CAP 6 – midpoint check, candidacy for degree; CAP 7 – program exit. The CAPS include criteria for academic achievement; disposition assessments; critical assessments, including portfolios for student teaching and for exit that document proficiency on the Kentucky IECE Teacher Standards; and, commitment to the *Kentucky Code of Ethics* for teachers. For program evaluation, CAP data and graduate survey data are summarized for analysis and reviewed during annual unit retreats. In addition, surveys of graduates will provide assessment data valuable to program improvement efforts.

KRS 161.028 and KRS 161.030 provide for the EPSB to establish curricula for educator preparation programs in Kentucky and approve such programs at institutions of higher education. The Division of Educator Preparation, Assessment and Internship, Content Area Program Review Committees, and the Reading Committee evaluated the program review documents submitted for approval against performance-based program certification guidelines established by the EPSB. These program proposals meet all the requirements set forth by the EPSB. A Letter of Support from the Academic Dean of Campbellsville University and an Executive Summary are included in the program review document that is available on the EPSB secure website.

UNIVERSITY OF KENTUCKY

8.0 ENDORSEMENTS
  English as a Second Language P-12

9.0 CONTINUING EDUCATION
  Master of Arts in Education for Rank II and Rank I: English as a Second Language

Background:
The English as a Second Language (ESL) endorsement programs proposed by the University of Kentucky are designed to prepare currently certified Kentucky teachers to become certified in ESL for grades P-12 in order to teach English Learners in language and content classes as well as become leaders in their schools in the education of culturally and linguistically diverse students. The programs will focus on skills relating to English language acquisition and specific subject matter development. Candidates will develop new competencies in second language learning, cross-cultural education, the English language, and ESL pedagogy. The proposal includes three program options – a 21 credit hour endorsement (certification only) program, a 36 credit hour master’s plus endorsement program for Rank 2, and a 36 credit hour master’s plus endorsement program for Rank I. The courses in the programs are organized around three areas of knowledge: Linguistics, Second Language Acquisition, and Teaching Methods. Candidates will participate in multiple field experiences, observing and assisting or teaching in ESL programs, providing direct instruction to English learners. Each course in the programs demonstrates alignment with the appropriate specialty professional association standards (TESOL) and the Kentucky Teacher Standards. Courses will be taught in both a campus-based and online format and be supported by four full-time and tenured university faculty members. Two are members of the Department of
Modern and Classical Languages, one is a member of the Department of Hispanic Studies, and one is a member of the Department of Curriculum and Instruction in the College of Education.

The program documents identified five key assessments that will be used for program evaluation as well as the description of the Quality Assurance System employed by UK’s College of Education. The five key assessments are Praxis II exam, leadership project, MCL 690 course portfolio, ESL unit and lesson plans, and a curriculum unit project in TSL 515. The programs will conduct a variety of program assessments each year in order to evaluate program effectiveness using the five key assessments. Other candidate data items will be collected to track candidates through three transition points (program admission, retention, and exit) to record and monitor candidate performance on the applicable standards (TESOL, KTS, and ILA). The program will focus on critical assessment data such as GPA, the five key assessments, candidate end-of-year program survey, and course performance, including fieldwork in ESL settings.

EDUCATION PROFESSIONAL STANDARDS BOARD
STAFF NOTE
Action Item A

**Action Item:**
Career Progression Charter and creation of a task force to review and develop a new career development system for 21st century educators

**Applicable Statutes and Regulation:**
KRS 161.1211 Classification of teachers
16 KAR 8:010 Rank I classification
16 KAR 8:020 Planned Fifth-Year Program
16 KAR 8:030 Continuing education option for certificate renewal and rank change
16 KAR 8:040 Ranking of occupation-base career and technical education teachers

**Applicable Goal(s):**
Goal 2: Every professional position in a Kentucky public school is staffed by a properly credentialed educator.

**Issue:**
The current classification of teachers outlined in KRS 161.1211, is based on a model that uses additional education as a proxy for competency, despite more recent research challenging this idea. The costs of that additional education have grown drastically leaving teachers with student loan debt, while salaries have not increased.

**Background:**

Also during the Board meeting, it was determined that a Career Progression Charter and recommendations for a task force would be presented to the Board for consideration at the December 2017 Board meeting.

A brief summary of the information presented by Mr. Hibpshman included research findings with these details:

The current classification of teachers outlined in KRS 161.1211, is based on a model that was first introduced in 1921. The standard teacher compensation approach for the United States has been the “single salary schedule,” also known as “step and lane” compensation, and since the middle of the 20th century, more than 90% of US teachers have been subject to this model. Teachers subject to the single salary schedule are paid primarily on the basis of years of experience and education level, two characteristics of teachers that have, at best, shown a weak relationship with student achievement.

Kentucky’s rank system has been in existence since at least the 1960’s. A teacher who completes preparation at the bachelor’s level is normally hired at Rank III, and is expected to acquire, within 10 years of initial certification, a master’s degree or its equivalent. Acquisition of the...
master’s degree will usually result in eligibility for Rank II. Teachers who have achieved Rank II and complete at least an additional 30 college credit hours are then eligible for Rank I. Both Rank II and Rank I result in salary enhancements. Districts maintain separate salary schedules for ranks III, II, and I. The magnitude of the salary enhancement for each rank change is established by individual districts, but amounts to a median improvement for Rank II of $4168 in annual salary. National Board certification generally makes a teacher eligible for Rank I.

Master’s degree requirements have increasingly come into question as the cost of higher education has risen in recent years and the most common means of paying the cost has become student loans. Thus, both at the undergraduate and graduate levels, college-educated persons increasingly accumulate large debts by the time they complete programs.

National Board certification and teacher leadership have been imposed on the existing single salary schedule in Kentucky with no obvious attempt to re-engineer the system to accommodate these initiatives. Additionally, Kentucky’s one attempt at pay-for-performance, the School Rewards Trust Fund, required special funding that was rescinded in 2004.

Groups/Persons Consulted:
- Kentucky Department of Education – Dr. Stephen Pruitt, Commissioner of Education
- Council on Postsecondary Education – Bob King, President; and Dr. Aaron Thompson, Executive Vice President
- Kentucky Association of School Administrators – Wayne Young, Executive Director
- Kentucky Education Association – Mary Ruble, Executive Director
- Kentucky Association of School Superintendents – Dr. Tom Shelton, Executive Director
- Deans of Public Universities’ Colleges of Education
- Kentucky General Assembly – Sen. Mike Wilson, Chair of Senate Education Committee, Representative John Carney, Chair of House Education Committee, Leadership of the Kentucky Senate
- Association of Independent Kentucky Colleges and Universities – Dr. Gary Cox, President
- Education and Workforce Development Cabinet – Hal Heiner, Secretary

Potential Actions:
1. Approve the Career Progression Charter and creation of the task force.
2. Do not approve the Career Progression Charter and creation of the task force.
3. Modify the Career Progression Charter and creation of the task force.

Staff Recommendation:
Potential Action 1

Rationale:
A new career progression system should:

1. redirect existing elements (e.g., National Board certification, rank, teacher leadership, etc.) to conform to a new model of teacher capability development based on a coherent model of teacher competency; and
2. call for no new sources of funding, redirecting existing sources of funding to recognize accomplishment along the continuum of the new teacher effectiveness model.

Background

The current teacher classification system outlined in KRS 161.1211 Classifications of teachers, is based on a model first introduced in 1921.

During recent years, much attention to educator salary and career progression has been given at both the state and national levels. Asked to study the current situation as it relates to Kentucky educators, Mr. Terry Hibpshman presented details of his research, Toward a Coherent Kentucky Teacher Career Ladder, October, 2017 at the meeting of the Board held October 9, 2017 (http://www.epsb.ky.gov/mod/data/view.php?d=7&rid=331). A synopsis of his findings are included: “Since 1921, when the Denver and Des Moines public school systems first adopted it (Hassel, 2002) the standard teacher compensation approach for the United States has been the “single salary schedule,” also known as “step and lane” compensation (Boston Teaching Policy Fellows, 2011). Since the middle of the 20th century, more than 90% of US teachers have been subject to this model (Booker & Glazerman, 2008; Pham et al., 2017). Teachers subject to the single salary schedule are paid primarily on the basis of years of experience and education level (Figlio & Kenny, 2006; Podgursky & Springer, 2006), two characteristics of teachers that have, at best, shown a weak relationship with student achievement.”

“Kentucky’s rank system has been in existence since at least the 1960’s. There are a number of ranks, beginning with Rank V, but for our purposes only Ranks III, II, and I are germane. A teacher who completes preparation at the bachelor’s level is normally hired at Rank III, and is expected to acquire, within 10 years of initial certification, a master’s degree or its equivalent. Acquisition of the master’s degree will usually result in eligibility for Rank II. Teachers who have achieved Rank II and complete at least an additional 30 college credit hours are then eligible for Rank I. Both Rank II and Rank I result in salary enhancements. Districts maintain separate salary schedules for ranks III, II, and I. The magnitude of the salary enhancement for each rank change is established by individual districts, but amounts to a median improvement for Rank II of $4168 in annual salary (Adams, 2017). National Board certification generally makes a teacher eligible for Rank I.”

“The single salary schedule was implemented nation-wide at a time when little was known about factors associated with exemplary teaching. At that time, the operative assumption was that teachers are more or less interchangeable (Hess, 2009; Weisberg et al, 2009), and the only question at issue was how to pay them equitably. Pay scales based on years of experience were common at the time. Additional education was assumed without proof to be evidence of greater competence. At the time that the single salary schedule was implemented, many teachers did not even have bachelor’s degrees (Hakel et al., 2008; Loeb & Béteille, 2008). Experience and education level were thus proxies for what we would have really liked to measure, the capabilities of the individual teacher.”

“Master’s degree requirements have increasingly come into question as the cost of higher education has risen in recent years. Since 1985, the Consumer Price Index has risen by about 115%, while inflation in the cost of college has been at about 500% (Odland, 2012). Concurrent with the rapidly-increasing cost of college, the most common means of paying the cost has
become student loans (Avery & Turner, 2012; Amromin & Eberly, 2016). Thus, both at the undergraduate and graduate levels, college-educated persons increasingly accumulate large debts by the time they complete programs.”

“A number of States, public school districts, individual schools, and foundations…have conducted experiments in teacher career policy. …Programs were discontinued for a variety of reasons, but…two predominate:

1. Career ladder elements imposed on existing systems with little effort to integrate them with existing elements;
2. The use of special funding, rather than redirection of existing funding, making them vulnerable to recension in times of austerity.”

“Kentucky has to some extent recapitulated the errors of these experimental systems, to equally unimpressive effect. National Board certification and teacher leadership have been imposed on the existing single salary schedule with no obvious attempt to reengineer the system to accommodate these initiatives, and Kentucky’s one attempt at pay-for-performance, the School Rewards Trust Fund, required special funding that was rescinded in 2004.”

All quotes are from the work of Mr. Terry Hibpshman, *Toward a Coherent Kentucky Teacher Career Ladder*, October, 2017, which can be found on the EPSB website at http://www.epsb.ky.gov/mod/data/view.php?d=7&rid=331.

**Purpose**

**Committees of the Task Force**

The Task Force shall consist of at least three committees:

1. Steering Committee
2. Research and Technical Advisory Committee
3. Unintended Consequences Committee

**Membership of the Committees**

The following groups are suggested as potential members:

- Association of Independent Kentucky Colleges and Universities (AIKCU)
- Counsel on Postsecondary Education
- Education and Workforce Development Cabinet
- Education Cooperatives
- Education Professional Standards Board
- Independent Education Preparation Program Faculty Members
- Kentucky Association of Professional Educators
- Kentucky Association of School Administrators
- Kentucky Association of School Superintendents
Scope of Operation

The Board charges the task force with reviewing and developing a new career progression system for 21st century educators and making recommendations for consideration.

The task force shall remain within statutory boundaries, but it may recommend regulatory, statutory, and policy changes to the Board.

All task force members are expected to make a time commitment to the work. EPSB staff will provide support to the task force and provide the necessary resources for the task force to complete its work.

Objectives

A new career progression system should:

1. redirect existing elements (e.g., National Board certification, rank, teacher leadership, etc.) to conform to a new model of teacher capability development based on a coherent model of teacher competency; and
2. call for no new sources of funding, redirecting existing sources of funding to recognize accomplishment along the continuum of the new teacher effectiveness model.

Time Frame

Once it commences, the task force will submit update reports of the new system to the Board and related recommendations will be submitted to the Board within one (1) year after its first meeting.

Issue:

Should the EPSB approve the following educator preparation program addition?

AMERICAN INTERCONTINENTAL UNIVERSITY

9.0 CONTINUING EDUCATION
Master of Education for Rank II

Background:

Beginning December 1, 2016, Kentucky became a member of the State Authorization Reciprocity Agreement (SARA). This agreement among member states, districts and territories establishes comparable national standards for interstate offering of postsecondary distance education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions based in another state. SARA is overseen by a National Council and administered by four regional education compacts (i.e., SREB). In order for the EPSB to approve educator preparation programs, which are located out-of-state or are exclusively offered online, the educator preparation program has to demonstrate compliance with the following Kentucky requirements:

1. Demonstrate that the program of preparation has been approved by the provider’s state or origin.
2. Demonstrate that the entity has been regionally accredited.
3. Demonstrate that the entity has been accredited by the Council for Accreditation of Educator Preparation (CAEP).
4. Demonstrate that the program of preparation is not based only upon the completion of a written or verbal assessment.
5. Demonstrate that the program of preparation has a selection and admission process that meets the requirements of 16 KAR 5:020.

American InterContinental University School of Education has submitted a Master of Education (M.Ed.) program with four specializations for advanced education and rank change opportunities for Kentucky teachers. The specializations are Curriculum and Instruction, Elementary Education, Instructional Design and Technology, and Secondary Education. Candidates who seek the Elementary or Secondary Education specialization must present evidence of active teaching credentials as part of the admissions process. The program includes the following activities and outcomes:

- Analyze research findings to respond to academic, physical, social and cultural differences in educating students and recommend method modifications based on research results;
- Design educational programs that effectively address objectives integrating the appropriate use of various instructional media and technologies for learning;
- Develop educational programs that use the appropriate criteria for selecting curricular content, organization of content, and methods of curriculum evaluation;
- Create a plan for implementation of learning content in various education settings;
- Evaluate the opportunities and challenges involved in the organizational development and delivery of learning programs using formative and summative instruments;
- Evaluation of education situations and problems in order to develop and substantiate solutions using learning and management strategies; and
- Demonstrate advanced discipline and appropriate communication skills in written and presentation formats.

The 48 credit hour curriculum is divided into two 24-hour credit blocks of the division core and the specialization options. For the Curriculum and Instruction and Instructional Design and Technology programs the division core is four courses (24 credit hours) addressing analysis, assessment, technology, integrative design and evaluation, and applying learning theories. The Curriculum and Instruction specialization component (24 credit hours) addresses principles of curriculum improvement, designing curricula, and evaluating curricula. The Instructional Design and Technology specialization component (24 credit hours) addresses foundations and models of instructional design, instructional media and learning environments, and design and development of online learning and computer mediated learning. The Elementary and Secondary Education core is composed of 24 credit hours addressing education leadership, educational standards and ethics, research resources for the classroom, and a culminating educational specialty capstone. The specialization components address student development, the diverse classroom, data applications, and managing the learning environment.

Letters of program approval and regional accreditation issued by the Illinois Board of Higher Education and the Higher Learning Commission were submitted as evidence of state program approval and regional accreditation. The Master of Education program is TEAC/CAEP accredited for three years (beginning October 2015 through October 2018). Program documents demonstrating regulatory compliance with 16 KAR 5:020 as well as the other EPSB requirements are available on the secure website.
Potential Actions:
1. Approve the proposed educator preparation program addition.
2. Do not approve the proposed educator preparation program addition.
3. Modify and approve the proposed educator preparation program addition.

Staff Recommendation:
Potential Action 1

Rationale:
The proposed educator preparation program submitted written evidence of compliance with the EPSB requirements under the SARA legislation for program approval.

Background:
16 KAR 2:010 identifies the process by which the Education Professional Standards Board issues certificates to applicants seeking certification through a traditional route and an alternate route.

The proposed amendments to 16 KAR 2:010 are being brought forward largely because the Board will be considering amendments to 16 KAR 5:030 (Proficiency Evaluation). The Board will need to consider amendments to 16 KAR 2:010 in order to effectuate the intent of 16 KAR 5:030. In addition to those proposed amendments, the Board will also be considering amendments including, but not limited to, the following:

- Revisions as a result of recent amendments to KRS 161.010 and KRS 161.048 by the General Assembly in the 2017 Legislative Session;
- Revisions necessary to eliminate the need to incorporate by reference an application form;
- Elimination of the criminal background check requirement; and
- Revisions as a result of the changes made to federal law.

Action Item D

Action Item:
Intent to Amend 16 KAR 5:030. Proficiency Evaluation

Applicable Statutes and Regulation:
KRS 161.020, 161.028, 161.030

Applicable Goal(s):
Goal 2: Every professional position in a Kentucky public school is staffed by a properly credentialed educator.

Issue:
Should the Education Professional Standards Board approve the amending of 16 KAR 5:030 Proficiency Evaluation?

Background:
This administrative regulation establishes an alternate process by which an Educator Preparation Provider may recognize the competency and proficiency of a certified educator for an advanced certification based on something other than academic college credit.

Such an established alternate process will ensure there is a means by which a certified educator can establish proficiency and competency based on that certified educator’s experience, past academic coursework, or professional skills that the educator has previously developed.

In consultation with EPP Deans and Chairs, the regulation amendment has been revised to clarify that the proficiency option is available only to those educators already holding initial certification and to assure that the individuals can meet the Kentucky Teacher Performance Standards relative to his or her discipline.

An Educator Preparation Provider that would like to administer proficiency evaluations will need to:
1. Notify the EPSB of its plans to conduct proficiency evaluations:
2. Provide the EPSB with a copy of the procedure it will use to conduct the proficiency evaluations;
3. Work with the currently certified educator to create a plan for obtaining the advanced certification; and
4. Recommend the currently certified educator for advanced certification.

The EPSB will need to receive and approve proficiency evaluation plans prior to implementation.
Groups/Persons Consulted:
- Deans and Chairs of the Education Preparation Providers
- Kentucky Association of Colleges for Teacher Education
- Staff of the Kentucky Department of Education

Potential Actions:
1. Approve the recommended amended regulation as presented.
2. Do not approve the recommended amended regulation as presented.
3. Modify the recommended amended regulation.

Staff Recommendation:
Potential Action 1

Rationale:
16 KAR 5:030 establishes an alternate process by which an Educator Preparation Provider may recognize the competency and proficiency of a certified educator seeking to obtain advanced certification based on something other than academic college credit.

This administrative regulation will assist local school districts and certified educators when addressing unique needs and opportunities to better serve students. It will also guide the Educator Preparation Providers in the manner by which review procedures for proficiency evaluations can be established. Finally, it will assist in the board’s ongoing effort to reduce teacher shortages in the various geographical locations in the Commonwealth.

The traditional [and formal] means of recognizing competency and proficiency for educator [teacher] preparation is by earning academic [in terms of standard college credits and the teacher certification requirements are generally stated in terms of college] credits. [A state accredited teacher education institution may evaluate and accept competency for teacher certification purposes for any of the specific curriculum requirements when the teacher candidate can demonstrate proficiency by reason of previous education, unusual experience, or proficiency examination at a level comparable to the usual requirements in that curriculum area.]

Section 2. (1) An EPP shall be required to meet the following requirements before conducting proficiency evaluations:

(a) The EPP shall provide notice to the EPSB of its intent to conduct proficiency evaluations; and

(b) The EPP shall provide to the EPSB a plan for approval that sets forth the process by which the EPP shall conduct proficiency evaluations. The evaluation must assess a candidate’s attainment of the applicable educational program standards.

(2) Failure to satisfy the requirements of this administrative regulation may result in the following action:

(a) The board may take action against the EPP’s state accreditation; and

(b) The board may notify the Council of Postsecondary Education that the EPP has not met the requirements of KRS 164.097.

Section 3. Educators holding a valid Kentucky certificate seeking another certification area shall not be required to meet the admission requirements in 16 KAR 5:020 (1)(2)(b) and 16 KAR 5:020 (1)(3)(b).
Section 4. The EPP shall only conduct proficiency evaluations for the EPP’s existing programs approved by the board.

Section 5. When conducting a proficiency evaluation, the EPP may assess proficiency by considering any of the following factors:

(1) Previous education;
(2) Comparable experience; or
(3) Proficiency assessment at a level comparable to the usual requirements in the content area in which the educator is seeking certification.

Section 6. Additional certification for certified educators.

(1) After completing the proficiency evaluation, the EPP shall:

(a) Prepare an educator learning plan (ELP) for the certified educator outlining all necessary requirements to complete a program for additional content area or grade range along with a timeline for completion not to exceed two (2) years; and

(b) Recommend that the EPSB issue a one year provisional certificate in accordance with 16 KAR 2:010.

(2) Upon successful completion of the ELP, the EPP shall recommend that the EPSB issue the educator a professional certificate, a certificate endorsement, or a certificate extension in the additional area in accordance with 16 KAR 2:010, Section 4.

Section 7. (1) The EPSB shall issue a certificate endorsement or extension in accordance with the process set forth in 16 KAR 2:010, Section 3 upon receipt of the educator’s request for certification; proof that the educator has successfully achieved a passing score on any required assessment; and recommendation of the EPP.
(2) The EPSB shall not require an educator to complete Kentucky Teacher Internship Program (KTIP) for the issuance of an endorsement or an extension if the certified educator previously completed KTIP for initial certification.

Section 8. Recency. (1) The certified educator seeking another certification shall submit a request for certification no later than five (5) years after successfully completing all requirements set forth in the ELP; or

(2) Within twelve (12) months after the EPP discontinues the educator preparation program identified in the ELP, whichever occurs first.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to ensure that there is a means by which a certified educator can establish proficiency and competency based on that certified teacher’s teaching experience or past college coursework.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 161.020 and 161.030 require that educators and other professional school personnel hold certificates of legal qualifications for their respective positions.

KRS 161.028 provides the EPSB with the authority and responsibility to establish standards and requirements for obtaining and maintaining a teaching certificate; and

KRS 161.028 also provides the EPSB with the authority and responsibility to set standards for and approve programs for the preparation of teachers.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation sets forth the process by which an educator preparation provider must comply in order to recognize the competency and proficiency of a current educator through a means other than just completing college courses.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

This amendment will update a regulation originally promulgated, in part, based on statutes that have been long since repealed (KRS 156.070 and KRS 161.025).

This amendment will provide a process for currently certified educators.

This amendment will provide the means by which the EPSB will exercise oversight authority over the proficiency evaluation process used by educator preparation providers.

This amendment will provide consequences to those educator preparation providers that fail to abide by the requirements of this regulation.

This amendment will provide an expedited process for currently certified educators to obtain certificate endorsements or certificate extensions.
This amendment will allow currently certified educators to teach additional content areas or age ranges while taking the coursework needed for the additional areas.

This amendment will provide school districts with a greater pool of candidates to fill areas of teacher shortages.

(b) The necessity of the amendment to this administrative regulation:

Applicable Goal(s):
Goal 2: Every professional position in a Kentucky public school is staffed by a properly credentialed educator.

Issue:
Should the Board approve the revised and amended administrative regulation 16 KAR 5:040 as presented?

Background:
The Board directed the EPSB staff to amend this regulation after receiving clarification from the Attorney’s General office concerning compensation for student teaching.

The revised regulation allows:
A. Student teachers to practice in the district in which they may currently be employed, and to be compensated for work not associated with the student teaching experience;

B. Institutions unable to locate a placement for student teachers that align with grade level requirements to submit alternative placement requests to EPSB staff for approval. However, the process ensures that final authority remains with the Board; and

C. University supervisors to perform remote observations of student teachers via technology, reducing costs in time and travel while also easing barriers to placements in rural districts.

- The Deans and Chairs of the Education Preparation Providers
- The Kentucky Association of Colleges for Teacher Education
- The Student Teaching Coordinators Committee

KRS 161.028; KRS 161.030
16 KAR 5:040

Applicable Goal(s):
Goal 1: Every approved educator preparation program meets or exceeds all accreditation standards and prepares knowledgeable, capable teachers and administrators who demonstrate effectiveness in helping all students reach educational achievement.

Issue:

Background:
Dr. Christopher Miller, Dean of the College of Education at Morehead State University, submitted a request to waive 16 KAR 5:040 Section 3 (3) for all candidates admitted to MSU’s Biological Science 8-12, Chemistry 8-12, Earth Science 8-12, Mathematics 8-12, and Physics 8-12 programs. The regulation requires that a candidate, as a prerequisite for admission to student teaching, have completed a minimum of 200 clock hours of field experiences in a variety of primary through grade 12 (P-12) school settings. **Issue:**
Should the EPSB grant a waiver of the prerequisites of the Level I program of preparation for the initial professional certificate for Director of Special Education?

**Background:**
Dr. Ann Larson, Dean of the College of Education and Human Development at the University of Louisville (UofL), submitted a request to waive 16 KAR 3:040 Section 2(2)(b) for Dr. Scott Keith Hooper to be admitted to UofL’s approved Alternative Route to Certification Director of Special Education program. The regulation requires that a candidate, as a prerequisite for admission to the program, has completed three (3) years of full-time experience as a teacher or school psychologist with a minimum of one (1) year as a teacher of exceptional children or school psychologist. Dr. Hooper has the minimum three (3) years of teaching experience; however, he does not have at least one (1) year of experience as a teacher of exceptional children. Dr. Hopper does have experience with students of special needs serving as the principal for three (3) years at Waller-Williams Environmental School, a school that services students with emotional and behavioral disabilities. Dr. Hooper’s teacher certification is not in any certification area for exceptional children. As a result, UofL has designed a program plan to provide Dr. Hooper with appropriate coursework to introduce the foundational knowledge and skills on which the Director of Special Education program was built. Supporting documentation outlines this program plan and includes email correspondence with Jefferson County Public Schools stating their desire to hire Dr. Hooper for the position of Director of Special Education.

Action Item, Waiver E

Action Item:
Request a waiver of grade range requirements for Bell County middle grades certified teacher(s)

Applicable Statutes and Regulation:
KRS 161.020; KRS161.028
16 KAR 2:010, Section (4)

Applicable Goal(s):
Goal 2: Every professional position in a Kentucky public school is staffed by a properly credentialed educator.

Issue:
Should the Education Professional Standards Board (EPSB) approve the grade level waiver(s) as requested by the Bell County Board of Education?

Background:
Bell County has four small K-8 schools in its district. While each of the school’s configurations is K-8, they are structured as Primary (K-3) and Middle School (4 – 8). All Middle Schools in the district are on a seven period day. Three of these schools have only one class for each grade level.

The superintendent states that if middle school teachers with 5-9 certificates are limited to teaching only those grade levels in the current 4-8 configuration, they are only able to utilize four periods of their instructional day. By allowing them to teach a 4th grade class in their field of certification the schools can utilize these individuals for five of the seven periods. The remainder of the teachers’ schedules would consist of a planning period and an RTI period so they can assist students who are struggling with content. The content specific teachers will be able to bring demonstrated content competency to the 4th grade level. It also will provide a unique situation where the school staff can assess the delivery of content across grades 4 – 8, allowing them to align curriculum across grade levels and track student progress for a period of five years.

1. Approve the waiver request.
2. Do not approve the waiver request.
