Report of the Executive Secretary

Commissioner Jason Glass shared that staff at the Kentucky Department of Education (KDE) have been busy in the post session on following up on some of the items that were passed into law. We’ve spent an extraordinary amount of time on SB 128, which provides an additional year for supplementing this past year on what students missed out on due to COVID-19. The intent of that is to allow students to make up for or repeat experiences that they otherwise would not have had. We have put forth guidance on both the KDE side and the KHSSA side to provide some clarity around those items.

A positive item from the Legislative Session was the addition of Kindergarten funding for the next school year and we are excited about those funds. There was also late in the Session an addition of 127 million dollars for school construction purposes that will run through FCC and another $75
million that are used to be used for locally operated Career and Technical Education Centers.

Another complexity that we will be working on that relates to the school choice and private tax credit bill is House Bill 563. There are two parts of the bill that we’re really focused on and it’s the public school choice side. This is where students move from one district to another and it will allow the funds to transfer into other districts. Whatever plan we come up with, it will be litigated, and a court will ultimately decide what that will look like.

A high priority now is that the state has received part of the third wave ESSER funds and we have received over two billion for K-12 education in Kentucky. There are more restrictions and hoops to work around but we are receiving guidance from the US Department of Education. We are looking forward to what districts will do with these funds to create experiences for students.

I want to update you on the search for the Associate Commissioner for OELE. As you may know, Rob Akers has announced his retirement. He is leaving us in a good place, and we want to thank him for all his hard work and the impact he has made on the state. We have selected a group of EPSB members to look at candidates before they go to KDE and me for the final selection/interview.

**Report from the Council on Postsecondary Education**

Amanda Ellis shared out updates from the Council on Postsecondary (CPE). CPE recently received 2.1 billion in a grant from the James Graham Brown Foundation to house the KY student success collaborative. This will be the first state-wide center in the country that works with two and four-year institutes linking campuses with business leaders and state policy makers. The goal is to help campuses develop an innovative approach that will improve graduation rates, close equity gaps and enhance workforce development for emerging leaders in higher education.

A few weeks ago, CPE and Gear up Kentucky had a Path Forward Forum. We had over 400 participants to attend with a combination of K-12 and postsecondary coming together moving forward during this different time we are facing. It was a great convening and lots of learning.

We were given about 3 million dollars from the Gears Funding through the Lieutenant Governor’s office with the CARES funding. This is going to help us with proposals for our Summer Bridge Programs for incoming freshmen into college campuses or freshman going into their sophomore year. We know it was a very different year this past year with many students struggling academically and socially. We had to focus on providing additional supports to help them succeed. We are so pleased that we have 29 applicants and we have received them from the KCTCS campuses, private and public four-year institutions. We are in the process of scoring them now and we will make the announcements soon.

The Commonwealth Education Continuum had its first set of work group meetings. We opened it up for the public to participate as well. We are very pleased with how well it was attended. We have great interest and momentum from around the state to really improve this area of the pipeline of transition preparedness and the success.
**Report from the Cabinet**

John Lyons shared that the Cabinet is focusing on the 4 E’s: expansion, exposure, experience, and expertise. The exposure is on two different pathways and as we continue to develop what those CTE pathways will look like, the Workforce Innovation Board and the office of Career and Technical Education are working together to begin to put that list together of what those CTE items will look like for our future and students.

We are also doing work through the Perkins Leadership monies. We have finalized those recipients for the past year and already beginning to work on what that will look like with our leadership monies going forward and the innovative approaches in our postsecondary institutions to be able to support them.

In the experience category, the Cabinet is really focused on developing different work-based learning opportunities to give our students experience and the soft skill experience to be successful as they move forward.

We are excited to be able to support the EPSB and thank you for giving the opportunity to share today.

**Report of the Associate Commissioner**

Rob Akers shared that it was good to be here with everyone and thanked Dr. Glass for the opportunity to share. OELE is proud to be the office that staffs and supports the work of the EPSB and I’m very proud of that work.

On the Ed Prep side, the office is continuing with the Program Review and Accreditation visits, with a very small staff who are getting the work done and partnering with Ed Prep Providers. We are currently working to develop a new model and process to use for program review and we anticipate being able to pilot the process that we feel it is more reflective and evidence based versus the input model that we are currently using. This process has been used and tested by some of our education principal prep programs and has received some really good feedback and it’s called the Quality Measures Program. We are going to be working to pilot that in the Fall and Todd Davis is leading that work along with our Ed Prep Branch.

Certification Branch has launched and signed a contract with Randa to develop our platform and which has been 2 years in the making. Currently, there are 60 home grown applications that have been developed over the past 20 years that are being managed by 4 people to do all the electronic work. At that time, there wasn’t a market for these programs, and they were created and developed in-house. Finally, there is a market and there are vendors out there who are doing this work and so part of the KDE model is to try to have programs and platforms hosted by vendors and operated by us. We are planning to test the certification side of things with our December graduates to make sure the kinks are worked out before graduation time next year. There will be an automated part in this system for certification and renewal, and we will be able to provide a much better product and service. There will also be new Program Review and Legal cases systems to help support these programs. We are excited to sign with Randa and we are beyond excited to launch this new program. I want to shout out to the Technology Office and the Finance Office with their help in managing this.
Peak time is coming up for our Certification branch and looking back at 2019 during COVID, the Branch was able to get the work done in less time and was more efficient without hiring additional staff. We want to recognize their efforts and hard work.

Today, you will have a lot of work to do and regulations to review. I would like to call your attention to a couple of areas. There is a revision for 16 KAR 5:020 which is the regulation that sets the standards for admission into the educator prep programs. This was last brought to you in October and has been over a year in the making with our Associates from the KY Association of Colleges of Teacher Education (KACTE). They made a proposal in February 2020 at the ACTE Conference in Atlanta. We brought it to the EPSB in the fall then we sent it back to KACTE after some considerable dialogue to make sure the recommendation went as far as we thought was appropriate. I’m pleased that we’re going to propose multiple measures for admission beyond just simply practice. I feel like we are moving in the right direction and you will be reviewing and considering that for approval today. I’m also going to be presenting two Option 7 Programs and I’m excited to be bringing those to you for consideration.

As Dr. Glass referenced this will be my last meeting with the ESPB. I will be retiring effective May 1st with 28 years of service in Education. A new Associate Commissioner will be working with you in June. It’s been a pleasure and privilege serving the board since 2016 as a board member, a board chair, and my latest role as an Associate Commissioner. It has really been incredible learning so much more about educator prep and certification and how policy is developed and implemented at the state level. It has been a true pleasure working with all the EPSB staff and team members. I wish I had more time to share something about each of our team members but, I’ll be sharing with them at our OELE Team meeting later this week. I would also like to say that I have been blessed to work with all of our team members who are all professionals who give their all everyday to support opportunity and access for all the kids of Kentucky with effective teaching and strong instruction. I would like to specially give a few words of thanks to Dr. Wayne Lewis, former Commissioner, who gave me the opportunity to do this work. To Interim Commissioner Kevin Brown, for his support during a very difficult transitional time and to Dr. Glass, for his support, vision and model of empowering his Associates to carry the work forward. My approach to the work has been to try to develop a climate of collaboration and support and I believe we’ve made some progress toward that goal over the past two and half years. It’s always my goal that maybe we will be a little bit better today than we were yesterday and a little better tomorrow than we are today. Thank you for the opportunity to provide this report and share my appreciation with the board and OELE team.

Consent Item:
University of Kentucky Program Approval: Orientation and Mobility Specialist

Staff’s Recommendation:
The Education Professional Standards Board (EPSB) should approve the University of Kentucky’s Orientation and Mobility Specialist programs as recommend by the Program Review Committee.

Rationale:
The submitted programs have demonstrated compliance with the EPSB regulations for admission and standards alignment requirements established in 16 KAR 2:210. The proposed educator preparation programs follow the appropriate regulations (16 KAR 5:010; 16 KAR 2:210) outlining program requirements for program approval as established by the EPSB. The programs have completed the review process and received a recommendation for approval from the Program Review Committee.

Applicable Statutes and Regulation:
KRS 161.028, KRS 161.030, 16 KAR 5:010, 16 KAR 2:210

Action Question:
Should the EPSB approve the Orientation and Mobility Specialist programs submitted by the University of Kentucky?

History/Background:
Existing Policy: KRS 161.028 and KRS 161.030 require the EPSB to establish curricula for educator preparation programs in Kentucky and approve such programs for Educator Preparation Providers. The Educator Preparation Branch and the Program Review Committee evaluated the program review documents submitted for approval against performance-based program certification guidelines established by the EPSB and the requirements of 16 KAR 2:210. The program proposal meets all the requirements set forth by the EPSB.

Summary: The University of Kentucky has submitted a Master of Arts degree program leading to certification for Orientation and Mobility Specialist at both Rank II and Rank I. This program will train candidates to provide instruction related to knowledge and skills for independent travel for children and adults with visual impairments, including those with additional disabilities. The Orientation and Mobility Specialist will be state and nationally certified to work one-on-one with individuals in several schools across a district or adult rehabilitation settings. These professionals teach topics including: the use of canes and dog guides, independent travel skills, sensory and motor development, and advanced travel in complex environments.

The program benchmarks include evaluation of course curricular standards, domains, and clinical competencies defined by the Association for Education and Rehabilitation of the Blind.

June 21, 2021 Meeting

Consent Item B
and Visually Impaired (AER) and are demonstrated through certification by the Academy for Certification of Vision Rehabilitation and Education Professionals (ACVREP). The program includes thirty-nine graduate level credit hours, nine of which are prerequisite courses relating to visual impairment. The coursework addresses the foundations, skills and techniques, technology, methods and assessment in orientation and mobility. The program also includes a thirty-hour practicum and a 320-hour internship. The admission requirements include a bachelor’s degree, a minimum 2.75 overall GPA, and review of the Professional Code of Ethics. Program exit requirements include an overall GPA of 3.0, successful completion of the final culminating portfolio, and successful completion of the internship. The program documentation identifies four program assessments including evaluations of the clinical competency during both the practicum and the internship, an assessment plan to specifically address the needs of a student with a visual impairment and complex needs; and, a technology lesson that incorporates the use of an orientation aid or other technology device. These program assessments address the assessment areas of Candidate Knowledge, Skills, and Professional Dispositions; Clinical Practice; Data and Research-driven Decision Making, Integration of Technology in the discipline, and Professional Capabilities.

A letter of support from the Dean of the College of Education and the Executive Summary are provided.

**Budget Impact:** There is no budgetary impact.

**Groups Consulted and Brief Summary of Responses:**
OELE staff and the Program Review Committee have reviewed this program proposal and determined that the program meets the requirements for approval. The program has completed the review process and received a recommendation for approval from the Program Review Committee per 16 KAR 5:010 Section 22.

Information Item:
The Council for the Accreditation of Educator Preparation (CAEP)

Rationale:
The proposed amendment to 16 KAR 5:010, Standards for Accreditation of Educator Preparation Providers and Approval of Programs, will allow educator preparation providers to pursue accreditation from national associations for the accreditation of educator preparation approved by the Education Professional Standards Board (EPSB). Additionally, the amendment to the regulation references the CAEP standards for the state-only accreditation option. This presentation from CAEP will provide the EPSB with information on CAEP and the association’s updated standards.

Applicable Statute or Regulation:
KRS 161.028, 16 KAR 5:010

History/Background:

Existing Policy: KRS 161.028(1)(b) requires the EPSB to set the standards, approve and evaluate educator preparation programs. 16 KAR 5:010 establishes the standards for accreditation of an educator preparation provider and the approval of a program to prepare an educator. The EPSB is currently reviewing a potential amendment to 16 KAR 5:010 that would allow an educator preparation provider to pursue accreditation from national associations for the accreditation of educator preparation that have been approved by the EPSB. At this time, CAEP is the only national association for the accreditation of educator preparation approved by the EPSB. Their 2013 Initial Level Standards and 2016 Advanced Standards have previously been approved by the EPSB for accreditation of educator preparation providers. The proposed amendment to 16 KAR 5:010, will also incorporate CAEP’s updated standards for the state-only accreditation option.

Summary: CAEP was founded in 2010 after the boards of the National Council for Accreditation of Teacher Education (NCATE) and the Teacher Education Accreditation Council (TEAC) voted for the formation of a new accreditation body. CAEP’s vision is excellence in education and their mission is to advance equity and excellence in educator preparation through evidence-based accreditation that assures quality and support improvements to strengthen P-12 student learning.

CAEP has recently approved the 2022 Initial Level Standards and the CAEP Standards for Accreditation at the Advanced Level. CAEP President Christopher Koch will present to the EPSB on CAEP and the standards that the association uses.

Staff's Recommendation:  
The Education Professional Standards Board (EPSB) should approve the amendment to 16 KAR 2:180 to update the regulation to align with current certification practices and ensure that the regulation remains in effect.

Rationale:  
The proposed amendment is necessary to ensure that 16 KAR 2:180 remains in effect. The amendment also updates the regulation to align with current certification practices and removes the reference to an outdated application.

Action Question:  
Should the EPSB approve the amendment to 16 KAR 2:180?

Applicable Statute or Regulation:  
KRS 13A.3102, KRS 13A.3104, KRS 161.028, KRS 161.030, KRS 161.1211, 16 KAR 2:180

History/Background:  
Existing Policy:  KRS 13A.3102(2) provides that “An ordinary administrative regulation with a last effective date before March 1, 2013, shall expire on March 1, 2020, except as provided by the certification process in KRS 13A.3104.” KRS 13A.3104 sets forth the certification process that an agency must follow to avoid the expiration of an administrative regulation. This process requires the agency to review the administrative regulation in its entirety for compliance with current law governing the subject matter of the administrative regulation and file a letter with the regulations compiler prior to the expiration date, stating whether the administrative regulation shall be amended or remain in effect without amendment. If the certification letter states that the administrative regulation will be amended, the EPSB must file an amendment to the administrative regulation within eighteen (18) months of the date the certification letter was filed.

The EPSB certified 16 KAR 2:180 with the intent to amend on February 26, 2020 and must file an amendment to the regulation on or before August 26, 2021. This administrative regulation establishes the standards and procedures for issuance of the one (1) year conditional certificate established in KRS 161.030.

Summary:  The proposed amendment to 16 KAR 2:180 removes the reference to an outdated application and updates the grade point average required for issuance of the certificate to align
with other certificates. The amended regulation was presented to the EPSB for a first reading at the April meeting, and is included for EPSB review.

16 KAR 4:050. Dating of Certification, Amendment

Staff's Recommendation:
The Education Professional Standards Board (EPSB) should approve the amendment to 16 KAR 4:050 to address the dating of one-year provisional and probationary certificates and to ensure that the regulation remains in effect.

Rationale:
The proposed amendment is necessary to ensure that 16 KAR 4:050 remains in effect. The amendment also updates the regulation to address the dating of one-year provisional and probationary certificates.

Action Question:
Should the EPSB approve the amendment to 16 KAR 4:050?

Applicable Statute or Regulation:
KRS 13A.3102, KRS 13A.3104, KRS 161.020, KRS 161.028, KRS 161.030, 16 KAR 4:050

History/Background:

Existing Policy: KRS 13A.3102(2) provides that “An ordinary administrative regulation with a last effective date before March 1, 2013, shall expire on March 1, 2020, except as provided by the certification process in KRS 13A.3104.” KRS 13A.3104 sets forth the certification process that an agency must follow to avoid the expiration of an administrative regulation. This process requires the agency to review the administrative regulation in its entirety for compliance with current law governing the subject matter of the administrative regulation and file a letter with the regulations compiler prior to the expiration date, stating whether the administrative regulation shall be amended or remain in effect without amendment. If the certification letter states that the administrative regulation will be amended, the EPSB must file an amendment to the administrative regulation within eighteen (18) months of the date the certification letter was filed.

The EPSB certified 16 KAR 4:050 with the intent to amend on February 26, 2020 and must file an amendment to the regulation on or before August 26, 2021. This administrative regulation establishes the effective and expiration dates for certification.

Summary: The proposed amendment to 16 KAR 4:050 adds a section to address the dating of one-year provisional and probationary certificates. These certificates are only valid for one calendar year, and therefore require different procedures. Specifically, if a one-year provisional or
probationary certificate is issued after the start of the spring semester, it will expire on December 31st of the year it is issued. The amendment also removes the reference to the Office of Teacher Education and Certification which is no longer operational. The amended regulation was presented to the EPSB for a first reading at the April meeting, and is included for EPSB review.

Action Item:
16 KAR 2:220E. Emeritus Certificate, New Emergency Regulation

Staff’s Recommendation:
The Education Professional Standards Board (EPSB) should approve the new emergency regulation and accompanying ordinary regulation 16 KAR 2:220 to set the standards for the emeritus certificate.

Rationale:
This emergency administrative regulation is being promulgated in order to meet an imminent deadline for the promulgation of an administrative regulation that is established by state statute. During the 2021 legislative session, the General Assembly passed House Bill 163 and the Governor signed it into law on April 5, 2021. This legislation, which is slated to become effective on June 29, 2021, amends KRS 161.030 to create an emeritus certificate and gives the EPSB the authority to promulgate administrative regulations establishing the requirements to receive an emeritus certificate. The ordinary administrative regulation is identical to the emergency administrative regulation.

Action Question:
Should the EPSB approve the new emergency regulation and ordinary regulation 16 KAR 2:220?

Applicable Statute or Regulation:
KRS 13A.190, KRS 161.028, KRS 161.030

History/Background:

Existing Policy: On April 5, 2021, Governor Beshear signed House Bill 163 into law. This bill, which becomes effective on June 29, 2021, amends KRS 161.030 to create an emeritus certificate. Specifically, the bill provides the EPSB “shall issue a ten (10) year emeritus certificate to an applicant who has:

1. Retired or will retire not more than one (1) year prior to the expiration date of the certificate;
2. Met the requirements to receive an emeritus certificate as set forth in administrative regulation promulgated by the Education Professional Standards Board; and
3. Completed the required application unless the provisions of KRS 161.120 apply.”

As there are only eighty-five (85) days between the Governor signing this bill into law and its effective date, the ordinary administrative regulation process would not allow the EPSB time to promulgate an ordinary administrative regulation to be effective when the statutory change goes

into effect. KRS 13A.190 allows for the promulgation of an emergency administrative regulation in order to meet an imminent deadline for the promulgation of an administrative regulation that is established by state statute. This emergency administrative regulation will be replaced by an ordinary administrative regulation because the emeritus certificate is expected to remain in statute. The ordinary administrative regulation is identical to this emergency administrative regulation.

**Summary:** The proposed emergency and ordinary administrative regulation sets forth the requirements for the application for the emeritus certificate including proof of retirement and a valid certificate at the time of retirement. Since applicants for the emeritus certificate are retired educators, the regulation establishes a reduced certification fee of $25. The emeritus certificate will note the areas of certification that an applicant held at the time of retirement and shall be valid for substitute teaching or employment within the noted areas as allowed by KRS 161.605 and the administrative regulations of the Kentucky Teachers’ Retirement System. Additionally, the regulation establishes a one-time renewal of the certificate that can be achieved by providing proof of qualifying employment, professional development or Effective Instructional Leadership Act hours. The regulation is included for EPSB review.

Statement of Emergency

16 KAR 2:220 E

This emergency administrative regulation is being promulgated in order to meet an imminent deadline for the promulgation of an administrative regulation that is established by state statute. 16 KAR 2:220E

Contact Person: Todd Allen, phone 502-564-4474, fax 502-564-9321; email regcomments@education.ky.gov

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the standards for the emeritus certificate.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to set the standards for the emeritus certificate.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 161.020 requires a certificate of legal qualifications for any public-school position for which a certificate is issued. KRS 161.028 requires the Education Professional Standards Board to establish standards and requirements for obtaining and maintaining a teaching certificate. KRS 161.030(10) requires the EPSB to set the requirements for the emeritus certificate.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation delineates the requirements for application, issuance and renewal of the emeritus certificate.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

(b) The necessity of the amendment to this administrative regulation:

(c) How the amendment conforms to the content of the authorizing statutes:

(d) How the amendment will assist in the effective administration of the statutes:

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: 173 Kentucky school districts and retired educators seeking emeritus certification.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Retired educators seeking emeritus certification will have to apply with the Education Professional Standards Board and provide the required documentation and fee. School districts will not have to take any action to comply.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The applicant for the emeritus certificate will have to pay a fee of twenty-five ($25) dollars. Certification fees are typically set in 16 KAR 4:040, and the cost of a five-year professional certificate is eighty-five ($85) dollars. However, in recognition of the fact that these educators are retired, the Education Professional Standards Board is charging a reduced fee of twenty-five ($25) dollars,
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Retired educators will be issued an emeritus certificate. This could result in more retired educators maintaining certification to substitute or accept employment in the public schools as allowed by the Kentucky Teachers’ Retirement System.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The initial cost to implement this regulation will be the creation of the new certificate and certificate code in the system, training for staff on the standards and requirements for this new certificate, and the time and resources for processing the applications and issuing the emeritus certificate. This is a new certificate, and it is unknown how many applications will be received; however, it is expected that this will be offset by the certification fees collected.

(b) On a continuing basis: The continuing cost to implement this regulation will be the staff time and resources for processing applications. This is a new certificate, and it is unknown how many applications will be received; however, it is expected that this will be offset by the certification fees collected.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Certification Fees collected pursuant to this regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: Though certification fees are typically established by 16 KAR 4:040, in recognition of the applicants’ status as retired educators this administrative regulation establishes a reduced fee for the emeritus certificate of twenty-five ($25) dollars.

(9) TIERING: Is tiering applied? Tiering is not applicable to the requirements of this regulation.
16 KAR 2:220 E
Contact Person: Todd Allen, phone 502-564-4474, fax 502-564-9321; email regcomments@education.ky.gov

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Education Professional Standards Board and public-school districts.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 161.020, KRS 161.028, KRS 161.030.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? Each applicant for the emeritus certificate will have to pay a twenty-five ($25) dollar fee for issuance. This is a new certificate, so it is unknown how many applications will be received. Certification fees are a part of the Education Professional Standards Board’s restricted funds, that in accordance with KRS 161.028 (1)(q) can be used towards the costs of issuance, reissuance, and renewal of certificates, and the costs associated with disciplinary action against a certificate holder.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Each applicant for the emeritus certificate will have to pay a twenty-five ($25) dollar fee for issuance. Certification fees are a part of the Education Professional Standards Board’s restricted funds, that in accordance with KRS 161.028 (1)(q) can be used towards the costs of issuance, reissuance, and renewal of certificates, and the costs associated with disciplinary action against a certificate holder. This is a new certificate and it is unknown how many applications will be received. Each certificate will be valid for ten-years, so applicants will not reapply annually.

(c) How much will it cost to administer this program for the first year? For the first year, cost will be the creation of the new certificate and certificate code in the system, training for staff on the standards and requirements for this new certificate, and the time and resources for processing the applications and issuing the emeritus certificate. As this is a new certificate, we are unable to determine the number of applications that will be received. It is expected that the increased restricted fund from the certification fees collected for these applications will offset the costs.

(d) How much will it cost to administer this program for subsequent years? For subsequent years, the cost will be the staff time and resources for processing the applications and issuing the emeritus certificates. This will vary depending on the number of applications and certificates, and as this is a new certificate, we are unable to determine that number. However, it is expected that the increased restricted funds from the certification fees collected for these applications will offset the costs.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.
Revenues (+/-):
Expenditures (+/-):

Other Explanation: At this time, it is unknown how many retired educators will seek an emeritus certificate. Some retired educators do not wish to maintain certification upon retirement. Currently, if an educator wishes to keep their certificate current after retirement they can apply for renewal of the full certificate, which carries an eighty-five ($85) dollar fee or they can apply for a five-year substitute certificate for fifteen ($15) dollars. The emeritus certificate will have the same rights as the full certificate, for a ten-year period for a reduced fee of twenty-five ($25) dollars. The certification fees collected for these applications will offset the costs of issuance.

**STAFF NOTE**

**Action Item:**
16 KAR 2:230E. Exception Certificate, New Emergency Regulation

**Staff's Recommendation:**
The Education Professional Standards Board (EPSB) should approve the new emergency regulation and accompanying ordinary regulation 16 KAR 2:220 to set the standards for the exception certificate.

**Rationale:**
This emergency administrative regulation is being promulgated in order to meet an imminent deadline for the promulgation of an administrative regulation that is established by state statute. During the 2021 legislative session, the General Assembly passed HB 163 and the Governor signed it into law on April 5, 2021. This legislation, which is slated to become effective on June 29, 2021, amends KRS 161.030 to create an exception certificate and gives the EPSB the authority to promulgate administrative regulations establishing the requirements to receive an emeritus certificate. The ordinary administrative regulation is identical to this emergency administrative regulation.

**Action Question:**
Should the EPSB approve the new emergency regulation and ordinary regulation 16 KAR 2:230?

**Applicable Statute or Regulation:**
KRS 13A.190, KRS 161.028, KRS 161.030

**History/Background:**

**Existing Policy:** On April 5, 2021, Governor Beshear signed House Bill 163 into law. This bill, which becomes effective on June 29, 2021, amends KRS 161.030 to create an exception certificate. Specifically, the bill provides the EPSB “shall issue a one (1) time five (5) year exception certificate to an individual:

1. Whose certificate has expired;
2. Whose rank upon expiration was Rank I or Rank II;
3. Who has met the requirements to receive an exception certificate as set forth in administrative regulation promulgated by the EPSB;
4. Who completed three (3) years of classroom instruction prior to the certificate's expiration; and
5. Who has completed the required application unless the provisions of KRS 161.120 apply.
As there are only eighty-five (85) days between the Governor signing this bill into law and its effective date, the ordinary administrative regulation process would not allow the EPSB time to promulgate an ordinary administrative regulation to be effective when the statutory change goes into effect. KRS CH 13A.190 allows for the promulgation of an emergency administrative regulation in order to meet an imminent deadline for the promulgation of an administrative regulation that is established by state statute. This emergency administrative regulation will be replaced by an ordinary administrative regulation because the exception certificate is expected to remain in statute. The ordinary administrative regulation is identical to this emergency administrative regulation.

**Summary:** The proposed emergency and ordinary regulation establish the application requirements for issuance of the exception certificate. This one-time certificate will allow a Rank I or Rank II educator with three years of classroom instruction experience to renew or reissue their certificate without meeting the standard renewal or reissuance requirements. The regulation is included for EPSB review.

**Budget Impact:** There is no budgetary impact.

KRS 161.030(10) requires the EPSB to set the requirements for the one-time exception certificate.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation delineates the requirements for application and issuance of the one-time exception certificate.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

(b) The necessity of the amendment to this administrative regulation:

(c) How the amendment conforms to the content of the authorizing statutes:

(d) How the amendment will assist in the effective administration of the statutes:

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: 173 Kentucky school districts and Rank I/II educators with an expired certificate who were unable to meet the requirements for renewal or reissuance.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Applicants for the one-time exception certificate will have to complete an application and provide the required documentation. School districts will not have to take any action.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no fee established by the Education Professional Standards Board in this regulation. 16 KAR 4:040 sets the certification fees and applicants will have to pay the established fee that corresponds to the certificate. There is no cost for school districts.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Applicants will be issued a one-time exception certificate that reissues their previously expired certifi-
cates. School districts will have access to a larger pool of certified candidates.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: The initial cost to implement this regulation will be the creation of the new certificate and certificate code in the system, training for staff on the standards and requirements for this new certificate, and the time and resources for processing the applications and issuing the exception certificate. This is a new certificate, and it is unknown how many applications will be received; however, it is expected that this will be offset by the certification fees collected.

(b) On a continuing basis: The continuing cost to implement this regulation will be the staff time and resources for processing applications. This is a new certificate, and it is unknown how many applications will be received; however, applicants will only be entitled to one issuance.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Certification fees collected pursuant to 16 KAR 4:040.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: Certification fees are established by 16 KAR 4:040. No additional fees are established by this regulation.

(9) TIERING: Is tiering applied? Tiering is not applicable to the requirements of this regulation.

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Education Professional Standards Board and public-school districts.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 161.020, KRS 161.028, KRS 161.030.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? Each applicant for the certificate will have to pay the certification fee established in 16 KAR 4:040. This is a new certificate, so it is unknown how many applications will be received. Certification fees are a part of the Education Professional Standards Board’s restricted funds, that in accordance with KRS 161.028 (1)(q) can be used towards the costs of issuance, reissuance, and renewal of certificates, and the costs associated with disciplinary action against a certificate holder.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Each applicant for the certificate will have to pay the certification fee established in 16 KAR 4:040. This is a new certificate, so it is unknown how many applications will be received. Certification fees are a part of the Education Professional Standards Board’s restricted funds, that in accordance with KRS 161.028 (1)(q) can be used towards the costs of issuance, reissuance, and renewal of certificates, and the costs associated with disciplinary action against a certificate holder.

(c) How much will it cost to administer this program for the first year? For the first year, cost will be the creation of the new certificate and certificate code in the system, training for staff on the standards and requirements for this new certificate, and the time and resources for processing the applications and issuing the one-time exception certificate. As this is a new certificate, we are unable to determine the number of applications that will be received. It is expected that the increased restricted fund from the certification fees collected for these applications will offset the costs.

(d) How much will it cost to administer this program for subsequent years? For subsequent years, the cost will be the staff time and resources for processing the applications and issuing the one-time exception certificates. This will vary depending on the number of applications and certificates, and as this is a new certificate, we are unable to determine that number. However, it is expected that the increased restricted funds from the certification fees collected for these applications will offset the costs.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-):
Expenditures (+/-):
Other Explanation: At this time, it is unknown how many educators will seek a one-time exception certificate. Applicants will be required to pay the certification fee established in 16 KAR 4:040. The certification fees collected for these applications will offset the costs of issuance.
Action Item:
16 KAR 6:010. Assessment prerequisites for Teacher Certification, Amendment

Staff’s Recommendation
The Education Professional Standards Board (EPSB) should approve the amendment to 16 KAR 6:010 to update assessments for teacher certification.

Rationale:
The proposed amendment would update 16 KAR 6:010 to reflect the new Praxis II Assessments developed by the Educational Testing Service (ETS). Some of the assessments currently listed in 16 KAR 6:010 will be discontinued in August 2021.

Action Question:
Should the EPSB approve the amendments to 16 KAR 6:010?

Applicable Statute or Regulation:
KRS 161.020, KRS 161.028, KRS 161.030, 16 KAR 6:010

History/Background:
Existing Policy: KRS 161.028(1)(a) authorizes the EPSB to establish standards and requirements for obtaining and maintaining a teaching certificate. KRS 161.030(3) and (4) require the EPSB to select the appropriate assessments required prior to teacher certification. 16 KAR 6:010 establishes the examination prerequisites for teacher certification.

Summary: The proposed amendment to the regulation would update certain Praxis II assessments to the new version and includes new test for certification areas that previously did not have a test. The amendment also allows for adoption of the recommended cut-scores set by ETS.

The proposed amended regulation is included for EPSB review. Below is a summary of the test changes included in the amendment:

Revised Tests:
- Middle School Mathematics (5164) - 157 replaces Middle School Mathematics (5169) – 165
- Middle School Science (5442) - 152 replaces Middle School Science (5440) – 150
- Mathematics (5165) - 159 replaces Mathematics: Content Knowledge (5161) – 160
- Reading Specialist (5302) – 165 replaces Reading Specialist (5301) – 164
- Teaching Reading: K-12 (5206) – 156 replaces Teaching Reading (5204) – 153
- Education of Young Children (5024) – 160 replaces Interdisciplinary Early Childhood Education (5023) – 166
New Tests:
- Japanese: World Language (5661) – 156
- Music: Instrumental and General Knowledge (5115) – 150 replaces Music: Content and Analysis (5114) – 162
- Music: Vocal and General Knowledge (5116) – 153 replaces Music: Content and Analysis (5114) – 162

If the EPSB approves this amendment, staff also asks the EPSB to consider allowing the new tests and cut scores to meet the requirements of 16 KAR 6:010 immediately while the regulation completes the legislative process.

16 KAR 5:010. Standards for Accreditation of Educator Preparation Providers and Approval of Programs, Amendment

**Staff’s Recommendation:**
The Education Professional Standards Board (EPSB) should approve the amendments to 16 KAR 5:010.

**Rationale:**
The proposed amendment identifies the accreditation and program approval requirements for current and prospective Educator Preparation Providers (EPPs) in Kentucky. 16 KAR 5:010 was last revised in 2011, and the proposed amendment reflects current national and state standards and recommended policy and procedural changes.

**Action Question:**
Should the EPSB approve the amendments to 16 KAR 5:010?

**Applicable Statute or Regulation:**
KRS 161.028, KRS 161.030, 16 KAR 5:010

**History/Background:**

**Existing Policy:** 16 KAR 5:010 requires that an EPP, or prospective EPP, seek state accreditation through either a joint national and state accreditation process or a state-only accreditation process, using the EPSB-adopted national standards. If an EPP chooses national and state accreditation through the joint review process, the state accreditation decision process begins after the national accreditor makes their ruling. The EPP receives a national accreditation ruling and a state accreditation ruling. The regulation describes the processes and protocols for initial and continuing accreditation of those two accreditation options.

The current regulation references national and state accreditation standards of the National Council for the Accreditation of Teacher Education (NCATE). NCATE ceased being a national accreditor in 2013 and the EPSB has adopted the standards of the national accreditor Council for the Accreditation of Educator Preparation (CAEP). The EPSB approved standards for initial preparation programs in 2015 and advanced preparation standards in 2019.

Additionally, 16 KAR 5:010 describes an extensive program review structure for new and existing EPPs seeking approval for new programs and continuing programs. The continuing program review process occurs every seven years leading up to an EPPs accreditation. Additionally, the
current Teacher Leader Master’s Programs and Planned Fifth-Year Programs for Rank II program requirements were added in the 2011 revisions to 16 KAR 5:010.

Summary: National accreditation recognition: The EPSB rules on state accreditation for an EPP as part of either a joint national and state accreditation visit or a state-only accreditation visit. After the national accreditor rules on national accreditation, the state accreditation decision process begins. The EPSB appointed Accreditation Audit Committee reviews the national decision and all other visit documentation and makes a recommendation to the EPSB. The revised regulation would no longer require a state accreditation process in addition to national accreditation. For an EPP that earns national accreditation by an approved accreditor for educator preparation, the EPSB would recognize the ruling of the national accreditor. The national review team would include a Kentucky trained site visitor for state representation as well as the state agency consultant. Additionally, the revised regulation includes a proposed state Emergency Authorization to Operate (EAO) process in the event a national accreditor denies accreditation to a Kentucky EPP. It allows the EPP to apply for an EAO so that it can temporarily operate while a state accreditation process begins.

Institutional accreditation requirement: Historically, the EPSB has required colleges or universities to hold regional accreditation status for their educator preparation unit to be accredited by the EPSB. However, there was a recent change to KRS 161.028 through Senate Bill 270 allowing colleges or universities to offer teacher preparation programs with regional accreditation or national accreditation if recognized by the US Department of Education and if the institution is eligible to receive federal funding under 20 U.S.C. secs. 1061 to 1063. Also, in recent rulemaking on accreditation, the U.S. Department of Education stated it would no longer categorize accrediting agencies as regional or national for “Department business.” Rather, it would use an umbrella term, referring to both types of accrediting agencies as institutional accreditors. In essence, as long as the college or university institutional accrediting agency, whether it be regional or national, is recognized by the U.S. Department of Education, it meets higher education expectations for quality.

Based on these recent changes, there is a proposed revision to 16 KAR 5:010 that would allow for regional or national accredited colleges or universities, called “institutional accreditors”, recognized by the U.S. Department of Education to seek accreditation from the EPSB.

Approved national accreditors of educator preparation: The EPSB has historically recognized the standards of a single national accreditor of educator preparation; previously NCATE (1954 - 2013) and currently CAEP (2014-present). There is another national accreditor for educator preparation that recently received approval from the Council for Higher Education Accreditation (CHEA) and there could be others in the future. The revised regulation provides the EPSB the decision of what national accreditor(s) of educator preparation Kentucky will recognize. All national accreditors of

---

1 However, higher education practitioners and stakeholders may still distinguish among accrediting agencies using the terms national and regional. In addition, some state laws and regulations may distinguish between regional and national accrediting agencies. U.S. Department of Education, “Student Assistance General Provisions, the Secretary’s Recognition of Accrediting Agencies, the Secretary’s Recognition Procedures for State Agencies,” 84 Federal Register 58850, 58904, November 1, 2019.
educator preparation would be required to have prior approval by the EPSB before an EPP’s national accreditation would be recognized.

State accreditation standards: In June 2015, the EPSB adopted the CAEP standards for initial preparation programs. In June 2019, the Board adopted the advanced standards as the accreditation standards for all educator preparation providers accredited by the EPSB. The revised regulation replaces the expired NCATE standards and reflects these current standards.

Program Review process: The proposed regulation identifies the components of the program review documentation needed for new program submissions and streamlines the documentation necessary for previously approved EPPs to submit to seek continuing program approval. This continuing program review and approval process occurs every seven years prior to the EPP’s accreditation. The information that EPPs have to submit for each program twenty-four months prior to their accreditation site visit includes: 1) Programmatic changes that have occurred since their last continuing program review; 2) Summary data analysis based on program assessment data identifying strengths and areas for improvement; 3) Continuous improvement plans linked to the summary data analysis, EPP data and institutional data; and, 4) Demonstration of compliance of regulatory requirements.

Decision Rule options for state accreditation: In the current regulation, the decision rules for an EPP seeking continuing accreditation reflect NCATE language. The proposed amendments reflect current CAEP language with regard to the defined expectations for standards to be met or not met. The EPSB decision options remain “accreditation,” “accreditation with conditions,” and “accreditation with probation”. CAEP decision options are “accreditation,” “accreditation with stipulations,” and “probationary accreditation.” The EPSB decision option “accreditation with conditions” now requires that all standards are met.

Budget Impact: If the EPSB recognizes multiple national accreditors for which Kentucky has to pay annual dues or fees, it could add approximately $10,000-$15,000 in costs.

Groups Consulted and Brief Summary of Responses:

Kentucky Association of Colleges of Teacher Education (KACTE)
EPP leaders

The Program Review Advisory Panel, comprised of representatives from EPPs and KDE staff, met several times to discuss the statutory requirements and possible revisions to the regulatory requirements relating to program review and approval processes. KACTE’s Policy Committee submitted feedback indicating the need to update the national accreditor and national standards. EPP comments were captured through representation on the Dean’s Council with Associate Commissioner, Rob Akers, and through KACTE meetings.

Request to Waive Admission Testing Requirements for Graduate Level Initial Certification Programs Except for Option 7 Programs

**Staff’s Recommendation:**
The Education Professional Standards Board (EPSB) should approve the waiver of 16 KAR 5:020, Section 1(3)(b) for all graduate level initial certification programs except for Option 7 programs.

**Rationale:**
The EPSB approved amendments to 16 KAR 5:020 at the April 26th meeting that will remove admission testing requirements for all graduate level initial certification programs with the exception of Option 7 programs. The amendment is currently in the legislative process and is expected to become effective on November 30, 2021. This waiver would allow educator preparation providers to admit candidates into these programs for the Fall 2021 semester who have not completed the admission assessments.

**Action Question:**
Should the EPSB waive the requirements of 16 KAR 5:020, Section 1(3)(b) for all graduate level initial certification programs except for Option 7 programs?

**Applicable Statute or Regulation:**
KRS 161.028, KRS 161.048, 16 KAR 5:020

**History/Background:**

*Existing Policy:* 16 KAR 5:020 establishes the standards for admission to an educator preparation program that is required for certification. Section 1 of this regulation identifies requirements for admission to approved undergraduate initial and graduate initial teacher preparation programs. The admission criteria for graduate initial teacher programs include a bachelor’s degree or advanced degree awarded by a regionally accredited college or university with a cumulative 2.75 grade point average on a 4.0 scale or 3.0 on the last thirty hours of credit completed, including undergraduate and graduate coursework, and successful completion of either the Praxis Core Academic Skills for Education (CASE) with cut scores of Reading 156, Writing 162, and Math 150, or the Graduate Record Exam (GRE) with cut scores of Verbal reasoning 150, Quantitative Reasoning 143, and Analytical Writing 4.0.

*Summary:* At the April 26th meeting, the EPSB approved amendments to 16 KAR 5:020 that removed the admission testing requirement for graduate level initial certification programs with the exception of Option 7 programs. KRS 161.048(8) requires applicants to Option 7 programs to successfully complete an admission assessment.

The amendment to 16 KAR 5:020 has been filed with the Legislative Research Commission. It is currently expected to complete that process and become effective on November 30, 2021. Staff is
recommending that the EPSB waive 16 KAR 5:020, Section 1(3)(b) for all graduate level initial certification programs except for Option 7 programs, to allow educator preparation programs to admit candidates to these programs for the Fall 2021 semester without admissions assessments.

Request to Approve Two and a Half Years of Qualified Teaching Experience to Meet the Requirements for Certification Renewal

**Staff's Recommendation:**
The Education Professional Standards Board (EPSB) should approve two and a half years of qualified teaching experience to meet the requirements of 16 KAR 4:060, Section 1(3)(a)1 for all certificates expiring June 30, 2021.

**Rationale:**
Due to the COVID-19 health crisis, many districts closed to in-person instruction for much of the Fall 2021 semester. As a result, some educators were unable to obtain a half year of experience needed for certification renewal. Approving two and a half years of experience to meet the requirements for certification renewal will provide relief to those educators who were unable to obtain a half year of experience as a result of the closures to in-person instruction.

**Action Question:**
Should the EPSB approve two and a half years of qualified teaching experience to meet the requirements of certification renewal?

**Applicable Statute or Regulation:**
KRS 161.028, 16 KAR 4:060

**History/Background:**
*Existing Policy:* 16 KAR 4:060, Section 1(3) provides that a teaching certificate that has been issued for a period of five years shall be renewed for subsequent five year periods upon the completion of three years of successful teaching experience or at least six semester hours of credit or the equivalent in professional development defined in 16 KAR 8:020. Section 2 of the regulation sets forth the requirements for successful teaching experience. A full year of experience shall include at least 140 teaching days of employment performed within the academic year. A half year of experience shall include at least seventy teaching days of employment performed within an academic semester. Section 1(7) of the regulation allows experience as a substitute teacher to be accepted in lieu of required teaching experience if the holder of the certificate was employed officially by the local board of education, was paid through the board of education, and substituted in his or her certification area no less than thirty teaching days per semester.

*Summary:* During the Fall 2021 semester, the COVID-19 health crisis resulted in long term district closures to in-person instruction. This resulted in a decreased need for substitute teachers. Therefore, some educators seeking to renew their certificate on experience, were unable to obtain a half year of experience during the Fall 2021 semester. Staff is recommending that the EPSB approve two and half years of qualified teaching experience to meet the requirements of 16 KAR 4:060, Section 1(3)(a)1 for all certificates expiring June 30, 2021.

Request to Approve Second Issuance of Emergency Certification for the 2021-2022 School Year

**Staff’s Recommendation:**
The Education Professional Standards Board (EPSB) should approve the waiver of 16 KAR 2:120, Section 2(3)(b)-(c) to allow second issuance of emergency certification for the 2021-2022 school year.

**Rationale:**
The EPSB approved this waiver for the 2020-2021 school year, to provide districts with additional flexibility to meet the needs of the COVID-19 instructional setting. School and district leaders have reported that this waiver was very beneficial for the previous school year, and that due to the teacher shortage it is still needed in the post pandemic setting. This waiver will permit districts to retain emergency certified teachers to fill positions they are unable to fill with a qualified teacher.

**Action Question:**
Should the EPSB waive the requirements of 16 KAR 2:120, Section 2(3)(b)-(c) to allow second issuance of emergency certification for the 2021-2022 school year?

**Applicable Statute or Regulation:**
KRS 161.028, KRS 161.100, 16 KAR 2:120

**History/Background:**

_Existing Policy:_ KRS 161.100 creates an emergency certificate that can be used when a district is unable to secure a qualified teacher for a position. The certificate is valid only for the specific job for which issued and for the current school term. 16 KAR 2:120 only allows issuance of a subsequent emergency certification if the first emergency certificate was issued after February 15th of a school year or if it was issued for less than fifty (50) percent of the person’s class schedule. The EPSB has previously approved waivers of this limitation on a case by case basis.

_Summary:_ For the 2020-2021 school year, the EPSB approved a waiver of 16 KAR 2:120, Section 2(3)(b)-(c) to allow second issuance of emergency certification. School and district leaders reported that this additional flexibility was beneficial for the 2020-2021 school year and have requested that it continue for the upcoming school year.

_Budget Impact:_ There is no budgetary impact.

Waiver: 16 KAR 5:040. Request to Waive Field Experience Clock Hours Due to District Closures

Action Question: Should the Education Professional Standards Board (EPSB) approve the waiver of field experience clock hours due to district closings?

Applicable Statute or Regulation: KRS 161.028, 16 KAR 5:040

History/Background:

Existing Policy: 16 KAR 5:040, Section 2 provides that prior to admission to student teaching, each teacher candidate must complete a minimum of 200 clock hours of field experiences in a variety of settings.

Summary: District closures due to COVID-19 have made it impossible for some teacher candidates to complete the required 200 field hours before the close of Spring 2021 higher education academic semester. District closures are out of the control of the teacher candidates and the educator preparation providers; however, both have made good faith efforts to complete as many hours as possible during the Spring 2021 semester. The following educator preparation programs have submitted waivers and a letter of support from their administration: Alice Lloyd College, Georgetown College, Kentucky State University, Northern Kentucky University, Union College, and University of the Cumberlands. If granted, the waiver would allow the requested students to student teach during the Fall 2021 semester.

Should the Education Professional Standards Board (EPSB) approve Morehead State University’s alternative student teaching placement request for Kaylee Thornsberry?

Applicable Statute or Regulation:
KRS 161.028, 16 KAR 5:040

History/Background:

Existing Policy: 16 KAR 5:040 Section 5 (4)(d) requires that a candidate pursuing a primary through grade 12 certificate shall have their student teaching balanced between an elementary school placement and a middle/high school placement. Institutions unable to locate a placement aligned with grade level requirements shall submit an alternative placement request to EPSB staff.

Summary: Morehead State University Art student Kaylee Thornsberry is assigned to student teach during the Fall 2021 semester. The county in which Ms. Thornsberry is completing her student teaching, does not have a qualified elementary Art placement available. Morehead State University has located a middle school and high school placement and is requesting that Ms. Thornsberry complete her seventy-day student teaching assignment in the middle school and high school setting.

16 KAR 3:090. Request to Waive Admission and Certification Requirements for Principal Certification for Michelle Klein

Action Question: 
Should the Education Professional Standards Board (EPSB) approve Western Kentucky University’s (WKU) request to waive the teaching experience requirement for Michelle Klein to allow her to be admitted to WKU’s School Principal P-12 program and issued the principal certificate?

Applicable Statute or Regulation: 
KRS 161.020, KRS 161.028, 16 KAR 3:090

History/Background:

Existing Policy: 16 KAR 3:090 establishes the preparation and certification requirements for all advanced educational leaders. Section 2 of the regulation outlines the prerequisites for admission to all advanced educational leadership certification programs. These prerequisites include qualifications for a Kentucky teaching certificate; admission to the program on the basis of criteria identified by the approved provider; Rank II; and completion of at least three years of full-time, documented teaching experience in a public school or a nonpublic school which meets the state performance standards, or which has been accredited by a regional or national accrediting association. Section 9(4) of the regulation outlines the prerequisites for issuance of a Statement of Eligibility for Advanced Educational Leader-School Principal. These prerequisites include successful completion of an approved program of preparation; three years of full-time teaching experience; and, successful completion of the appropriate assessments.

Summary: Dr. Corinne Murphy, Dean of the College of Education and Behavioral Sciences at WKU has submitted the waiver request on behalf of Michelle Klein. According to WKU, Ms. Klein is a unique educator with twenty years of experience in both public and parochial schools. Her path to school administration occurred in an alternative, yet parallel pathway, to that of a traditional candidate. Although she does not have three years of experience as a classroom teacher, her experiences as a school psychologist, Gifted Coordinator, and District MTSS/Data Analysis Coordinator provided the unique opportunity to work with teachers and principals for assisting with effective practices, problem solving, and using data to make informed decisions about instruction for school improvement. Her work with teachers and principals in the various roles provided a broad and deep understanding for improving instruction within schools. Ms. Klein also has four years of experience as the Dean of Students in an accredited parochial school and facilitated the process for Blue Ribbon status. WKU’s Proficiency Evaluation Committee has
reviewed and scored her digital portfolio of evidence and are ready to approve her Level I Principal certification. WKU believes her educational preparation as well as both public and parochial school experiences have fulfilled the spirit of 16 KAR 3:090’s requirement for three years of classroom teaching experience. WKU attests that her record indicates an individual who understands curriculum and instruction, the challenges faced by classroom teachers and building administrators, and the social and emotional needs of students. As Dean of Students at Christ the King School, Ms. Klein’s role for four years was commensurate to that of a certified building principal in any Kentucky public school.

WKU is requesting that Ms. Klein’s previous experience be accepted for admission to the program and issuance of the principal certification.

16 KAR 3:090. Request to Waive Certification Requirements for Principal Certification Requirements for Nick Warren

Action Question:
Should the Education Professional Standards Board (EPSB) approve the request to waive the requirement that the applicant possess the equivalent certificate from Ohio and accept the instructional experience obtained as a school counselor to meet the requirement of 16 KAR 3:090 and be issued the Kentucky Principal Statement of Eligibility?

Applicable Statute or Regulation:
KRS 161.028, 16 KAR 3:090; 16 KAR 4:030

History/Background:

Existing Policy: 16 KAR 3:090 establishes the preparation and certification requirements for all advanced educational leaders. Section 9(4) of the regulation outlines the prerequisites for issuance of a Statement of Eligibility for Advanced Educational Leader-School Principal. These prerequisites include successful completion of an approved program of preparation; three years of full-time teaching experience; and, successful completion of the appropriate assessments. 16 KAR 4:030 requires out-of-state prepared educators to possess an equivalent certification from the state where the applicant completed his or her preparation program.

Summary: Nicholas Warren is a certified school counselor in Kentucky and Ohio. Over the course of ten years in his role as an elementary school counselor and two years as a middle school counselor, he was responsible for developing and teaching a social, emotional curriculum on numerous topics through in-class instruction. He has provided detailed documentation of his lessons developed and taught over that 12-year period. Mr. Warren completed a principal certification program at Xavier University; however, he never obtained the principal certification in Ohio because he has been employed in Kentucky. Mr. Warren has the full support of his principal and central office, and letters of support have also been provided with his documentation. He has passed the School Leaders Licensure Assessment which is required for Kentucky principal certification. Mr. Warren is requesting a waiver of the requirement that he obtain the equivalent certificate from Ohio and is also requesting that the EPSB accept the years of classroom instructional experience provided and issue him the Kentucky Principal Statement of Eligibility.

Summary: Katrina Kennedy completed her Master of Arts in Teaching program for Elementary Education in 2014 but, was unable to pass all required certification tests by the time she graduated. By 2015, she had passed all required Elementary tests except for the Math subtest. Ms. Kennedy applied for the one-year certificate testing extension that was approved for the 2020-2021 school year, and during that year she passed the Math subtest; however, by that time the previous tests that she passed in 2014 and 2015 had expired. Action Question:
Should the Education Professional Standards Board (EPSB) approve the applicant’s request to allow the expired passing assessment scores to qualify for issuance of a certificate?

Applicable Statute or Regulation:
KRS 161.028, 16 KAR 6:010

History/Background:

Existing Policy: 16 KAR 6:010, Section 4 states “A passing score on an assessment established at the time of administration shall be valid for the purpose of applying for certification for five (5) years from the assessment administration date.” The regulation further provides that an educator who fails to complete the EPSB application for certification within the applicable recency period of the assessment shall retake the assessment.

Summary: Western Kentucky University (WKU) is requesting this waiver on behalf of Stephanie Miller. Ms. Miller completed a dual certification bachelor’s program in Middle School Math and Social Studies in 2012. She took and passed the Principles in Learning and Teaching and the Middle School Math content assessment but had not passed the Middle School Social Studies test. At that time, WKU required candidates to pass all tests for dual certification programs before recommending for certification. WKU no longer has this policy and now will recommend for the individual certifications even if the candidate has not passed the tests for both areas. WKU is requesting that the EPSB approve this request since the scores are still less than ten years old and the Educational Testing Service website states that scores are valid and accessible for ten years.

Summary: Brenda Thomas is an experienced Rank I teacher who completed Campbellsville University’s Teacher Leader Master’s program in Special Education to add Learning and Behavior Disorders (LBD) certification to her existing Moderate/Severe and Interdisciplinary Early Childhood Education certification in 2015. She took and passed the LBD Praxis test in 2015, but her rank change application only included the recommendation for rank change and not the additional certification. Ms. Thomas was not working in the area of LBD at the time, so she was unaware that the LBD credential had not been added. Recently, she realized that the LBD was not on her certificate and she was told that the score had expired in 2020. Our office has since received an amended recommendation to add LBD certification. Ms. Thomas is asking the EPSB to allow her 2015 passing test score to be accepted towards issuance of the LBD certification.

Ms. Kehrt previously worked towards a Master of Business Administration (MBA) degree and completed twenty-four graduate hours but did not complete the degree. Her coursework in that program is directly relevant to the content she will be teaching this year. She will have six additional hours completed this summer, but the certification requirement will not be completed until December 2021.
