Report from the Council on Postsecondary Education

A written report was provided to the Board. President King stated that he recognized the importance of teacher preparation. He additionally shared that the Council continues to research best practices and anticipated implementing future best practices not currently being carried out.

Strategic Plan Update

A written report was provided to the Board. Mr. Adams asked the Board to suspend the Strategic Plan report until a new Strategic Plan was adopted. The Board agreed to suspend the report.

Committee for Mathematics Achievement (CMA) Presentation

Mr. Ryan Davis, a Central High School Math teacher and Chair of the Committee for Mathematics Achievement, presented on the work of the CMA. The CMA was implemented through legislation in 2005 with two (2) distinct responsibilities- to develop and oversee a Strategic Plan for improving mathematics achievement in Kentucky and to provide advice and guidance to policy makers in Kentucky in that same area. Mr. Davis said the CMA is trying to regenerate and determine next steps for Kentucky. The CMA most recently redeveloped a Strategic Plan and Mr. Davis shared the plan with the Board.

Commissioner Stephen Pruitt expressed concern that math content would be dropped instead of compacted. Mr. Davis said the committee would consider intervention and the audience for which the CMA work would be presented. President King commented on the remarkable work of the CMA; however, he said the work is conducted with a small number of teachers and not at scale. He said math should be relevant to the careers students pursue. He said there have been discussions in postsecondary education surrounding college level mathematics and aligning math requirements to majors the students are pursuing. Mr. Shad Sletto asked how many students take

geometry in the 8th grade, how many students progress from secondary into a postsecondary math-related degree, and how that has changed over time. EPSB staff will work to get this data to Mr. Sletto.

Teacher Supply and Demand Study

Dr. Kate Akers, Executive Director of the Kentucky Center for Education and Workforce Statistics (KCEWS), reported on the work of KCEWS. She presented on the Teacher Supply and Demand Study.

Teacher Leader Masters Implementation Update

Drs. Roland Sintos Coloma and Cindy Reed of Northern Kentucky University and Dr. Chris Miller of Morehead State University, spoke on their respective Teacher Leader Masters Programs.

Alternate Route to Certification (KRS 161.048) Survey Results

Mr. Terry Hibpshman of the University of Kentucky Research Foundation presented the results of an Alternative Route to Certification Survey. He said eventually a report will be released that will discuss the survey in more detail.

Office of Attorney General's Opinion Regarding Compensation for Student Teaching and Clinical Hours

Mr. Adams stated that in addition to reviewing the Opinion of the Attorney General that was issued in April, staff have found little data that support the practice of prohibiting an individual from obtaining field experience hours or student teaching at a district or school of origin or one in which the individual is employed. The Opinion of the Attorney General states that "Kentucky law does not prohibit an educator preparation program provider from awarding credit to a teacher education student for student teaching or field experience for which the student received a financial incentive from either the school district or an education cooperative." He said by coupling these items, it is possible that a teacher candidate could not only fulfill field experience or student teaching at district or school of origin or one of employment, but also receive compensation for field experience hours or student teaching. The direction previously given to EPPs from staff is that teacher candidates should not receive a financial compensation from the location where field experience or student teaching is conducted, nor should they be paid directly for those activities. At the August Board meeting, staff will be seeking direction from the Board around its desire to allow or limit this. Based on that discussion and direction, staff will draft regulatory changes for the October meeting. Ms. Sarah Burnett asked for information on other states who pay student teachers. Staff will work to get this information to the Board.

HB 50

Pursuant to HB 50, Mr. Adams explained that beginning July 1, 2017, all EPSB regulations must be reviewed every seven (7) years. He said the Board will see proposed changes to regulations as a result of HB 50.

KRS 161.030

Mr. Adams said that 161.030 is the statute that contains KTIP. He said that while not explicitly stated, it appears that the legislature may have only contemplated teaching in a traditional school setting. It does not appear that the legislature considered non-traditional settings such as infant

and early childhood educators teaching infants in a home or teachers in a virtual setting like KET. Currently, the statute does not allow these individuals to complete KTIP. EPSB staff have had discussions with a legislator who is willing to sponsor a bill that would be more flexible for these teachers. Staff will need to draft appropriate regulations related to the statute changes.

Executive Order 2017-334

Mr. Adams provided the Board with a copy of Executive Order 2017-334 that was issued on June 2, 2017, as well as, a copy of the Reorganization Plan. The Reorganization Plan states that, "It is expected that the improved planning and coordination of these entities afforded as a result of reorganization will drive management and oversight costs down due to the utilization of shared staff and resources. Moreover, it is believed that the confluence of membership and collaboration will considerably improve the delivery and alignment of services to all education stakeholders in the Commonwealth, including students, teachers, parents, and schools." Mr. Adams said after reviewing the Executive Order and the Reorganization Plan, as staff understand it, there are three groups on which this Board will need to appoint non-voting, ex officio members. Those are the Read to Achieve Advisory Council, State Advisory Council for Gifted and Talented Education, and State Advisory Council for Exceptional Children.

The Executive Order discussed that state supervision and oversight of the EPSB by the Kentucky Board of Education "shall be provided in as much as the Kentucky Board of Education shall be afforded the final approval over certain actions of the Education Professional Standards Board" to protect the board from allegations of "potential anti-trust violations" that arise when the board is comprised of "active market participants engaged in self-regulation with power to issue and suspend licenses and discipline its licensees.". Mr. Adams said, as staff understand it, when this Board takes final action, that is accepting or amending a hearing officer's recommended order pursuant to KRS 161.120, the educator may appeal that decision to the Kentucky Board of Education (KBE) within seven (7) days.

Another item from the Executive Order concerns regulations. Item XXIX (29) of the Executive Order states that "The Kentucky Board of Education shall be given thirty days to review and approve all proposed administrative regulations of the EPSB prior to promulgation in a manner prescribed by the State Board..." Mr. Adams stated that as staff understand it, after it has been approved by the EPSB and signed by the Board chair, the regulation must go to the KBE for review and approval. If the KBE approves, the KBE board chair will also sign the regulation and only then will the EPSB staff file the regulation with LRC.

New EPSB Staff

Mr. Adams recognized new staff members Kate Klems, Destiny Hall, Joe Martz, Chelsea Young, Sai Prasad, and Bradley Rogers.

Board Member Introductions

With several new EPSB members, the full Board introduced themselves to one another.

Information/Discussion Items

New Strategic Plan and Board Goals

Deputy Executive Director John Fields reviewed the proposed new Strategic Plan and Board goals.

Some new strategies were developed for the Board goals. These strategies included the following:

- * Ensure that all Kentucky Educator Preparation Programs will achieve or maintain state accreditation and Council for the Accreditation of Educator Preparation (CAEP) accreditation upon their next regularly scheduled accreditation visit, in accordance with timelines established by the EPSB and CAEP.
- * Promote awareness of the EPSB Code of Ethics through ethics trainings, seminars, publications, and the like.
- * Maintain and review EPSB Policies and Procedures.
- * Maintain appropriate committee reports to the EPSB.

Below were the proposed Strategic Plan goals:

Strategic Plan Goal 1: By August 1, 2020, local education agencies will have an adequate certification pool from which to select candidates and increase teacher retention regardless of geographic location.

Strategic Plan Goal 2: By August 1, 2020, P-12 teachers will have additional options through approved graduate level programs which will lead to more pathways for P-12 educators to teach dual credit and/or CTE dual credit.

Strategic Plan Goal 3: By August 1, 2020, all in-state, and where appropriate, out-of-state certification procedures for issuance and re-issuance will be modernized to utilize electronic systems for more efficient processing.

This item is scheduled to be brought back before the Board in August for final action.

Recommendations from the Ad Hoc Committee to Review Expanding Certificate Options for Rank II

Dr. Cindy Reed and Mr. Eddie Campbell reported on the recommendations from the Ad Hoc Committee to Review Expanding Certificate Options for Rank II. They said that although the group reached consensus, there were recommendations that remained controversial and unanimous agreement was not achieved.

The six committee recommendations were as follows:

- 1) Remove the mandatory requirements for an educator to obtain a Rank II as outlined in 16 KAR 8:020.
- 2) Allow a NBPTS certification to apply toward either a Rank II or Rank I as allowed in KRS 161.1211(1) classification of teachers. If an educator receives an additional NBPTS certificate in a different content area, the second certification may be used for a Rank I.
- 3) Create an approval process for an education cooperative, school district, or similar, as allowed in KRS 161.010(10). Grant certification authority to submit a planned pathway for a Rank II utilizing field-based experience, individual research, and approved professional development as allowed in KRS 161.095 continuing education for teachers.
- 4) Maintain the current CEO program as is.
- 5) Remove the prerequisite of a master's degree for admission to an administrative program, but maintain the experience prerequisites.
- 6) Inform and promote the changes made by the Board once they go into effect.

President King expressed concern in precluding over time career ladders versus the current rank model system. He said Kentucky should look to other successful nations as we move forward. Mr. Adams said he thinks this system will help with transitioning Mr. King's concerns.

The recommendations are scheduled to be brought back before the Board in August for final action. Regulations may be developed depending on what the Board approves.

Policy Governing Proceedings Relating to Action on an Application for Certification or an Educator's Certification

Ms. Cassie Trueblood explained that the purpose of this policy is to supplement the regulation and procedures by adding a deliberate set of principles to guide Board decisions and achieve consistent outcomes. This item is scheduled to be brought back to the Board in August for final action.

16 KAR 5:030. Proficiency Evaluation, Amendment, Notice of Intent

Dr. Ben Boggs explained proposed changes to 16 KAR 5:030. This administrative regulation establishes an alternate process by which an educator preparation provider may recognize the competency and proficiency of a prospective educator or certified educator based on something other than college credit.

An educator preparation provider that would like to administer proficiency evaluations will need to:

- 1) Notify the EPSB of its plans to conduct proficiency evaluations;
- 2) Provide the EPSB with a copy of the procedure it will use to conduct the proficiency evaluations;
- 3) Work with prospective educators or currently certified educators to create a plan for obtaining

a certification; and

4) Recommend prospective educators or currently certified educators for certification.

The EPSB will need to receive and review proficiency evaluation plans.

This item is scheduled to be brought back to the Board in August for final action.

16 KAR 2:010. Kentucky Teaching Certificates, Amendment, Notice of Intent

Ms. Donna Brockman explained proposed changes to 16 KAR 2:010. The proposed amendments to 16 KAR 2:010 are being brought forward largely because the Board will be considering amendments to 16 KAR 5:030 (Proficiency Evaluation). The Board will need to consider amendments to 16 KAR 2:010 in order to effectuate the intent of 16 KAR 5:030. In addition to those proposed amendments, the Board will also be considering amendments including, but not limited to the following:

- Revisions as a result of recent amendments to KRS 161.010 and KRS 161.048 by the General Assembly in the 2017 Legislative Session.
- Revisions necessary to eliminate the need to incorporate by reference an application form.
- Elimination of the criminal background check requirement.
- Revisions as a result of the changes made to federal law.

This item is scheduled to be brought back to the Board in August for final action.
